

JavaScript Concatenate Operator +

Concatenate Operator +

The + operator can be used to concatenate strings.

```
var firstName = "John";
```

```
var lastName = "Doe";
```

```
var fullName = firstName + " " + lastName;
```

Adding Strings and Numbers

```
var x = 5 + 5;
```

```
var y = "5" + 5;
```

```
var z = "Hello" + 5;
```

RESULT:

10

55

Hello5

Adding Strings and Numbers

- Adding numbers, will return a number.
- Adding a number and a string will return a string.

Concatenate Operator **+** Adding Strings and Variables for Output
