In- Class Exercise – JS Conditional

INSTRUCTIONS: - Read the statements below and perform the tasks.

1. Create a HTML document, save as: **grade.html**

2. Use **"Grade"** as content of the title element.

3. Add a heading element **Grade**.

4. Add a paragraph element with a id selector **"grade".**

5. Add a script section to do the following:

6. Prompt the user to enter an exam **score**.

7. Create a function called **letterGrade()**. Pass the exam score into the letterGrade function.

8. The function will return the letter grade of the exam score based on the table below. Use **if conditional statements** that will return the letter grade.

Exam Score	Letter Grade
90 – 100	A
80 - 89	B
70 – 79	C
60 – 69	D
Below 60	F

9. Display the following in a HTML element with id selector **"grade":**

   score "=" letterGrade
