

<p>Click the button to demonstrate the prompt box.</p>

<button onclick="myFunction()">Try it</button>

<p id="demo"></p>

<script>

function myFunction()

{

var person = prompt("Please enter your name ");

if (person != null)

{

document.getElementById("demo").innerHTML =
"Hello " + person + "! How are you today?";

}

}

</script>

myFunction()
function is
called

A diagram consisting of two red arrows. The first arrow originates from the text 'myFunction()' in the button's onclick attribute and points to the 'myFunction()' line in the script block. The second arrow originates from the text 'myFunction() function is called' on the right side of the image and also points to the 'myFunction()' line in the script block.
