

In-Class Exercise – JavaScript If (Save As: **ifcorrectanswer.html**)

INSTRUCTIONS: - Read the statements below and perform the tasks.

1. Create a HTML document, save as: **ifcorrectanswer.html**
2. Add a heading element **If Correct Answer Example**.
3. Add a paragraph element **<p id="answ"></p>**.
4. Write a **<script>** to:
 - a. Enter the following prompt statement:

```
answer = prompt("Enter a or b")
```

5. Write an **if block** statement:
 - a. If (**answer == "a"**), then display "Correct Answer" in a

```
document.getElementById("answ").innerHTML = "Correct Answer";
```
 - b. else, display "Try Again" in a

```
document.getElementById("answ").innerHTML = "Try Again";
```
