INSTRUCTIONS: Create a HTML document with the following:

1. **Create <div> containers**

   - **In the 1st <div> container include:**
     - Heading: Associate in Computer Science.
     - Use the <span> tag in the heading.
     - Change the font color of the heading to a color of your choice.
     - Change the font of the heading to a font of your choice.
     - Change the background of the div to a color of your choice.
     - Below the heading, insert the description About the Computer Science program at GCC (search GCC's catalog).
     - Separate with a horizontal rule.

   - **In the 2nd <div> container, create a List of Links to include:**
     - Heading: Airlines that Fly to Guam.
     - Use the <span> tag in the heading.
     - Change the font color of the heading to a color of your choice.
     - Change the font of the heading to a font of your choice.
     - Change the background of the div to a color of your choice.
     - Create an Ordered or Unordered List of 3 Airlines that fly to Guam.
     - Each List Item should link to the airline's web page.
     - Each link should open in a new window.
     - Separate with a horizontal rule.
