In- Class Exercise – Blast Off!

INSTRUCTIONS: - Read the statements below and perform the tasks. Revise the while Loop and use a for Loop.

1. Initialize the variable **counter** to a starting value.

2. Use **for Loop** to print the following:

    10

    9

    8

    7

    6

    5

    4

    3

    2

    1

    BlastOff!

3. Outside the loop, print a message Blastoff!
