# In- Class Exercise – Dictionary: Pet Names

## INSTRUCTIONS:  - Read the statements below and perform the tasks.

1. Create a dictionary to hold information about pets.  Each key is an animal's name, and each value is the type of animal.

2. Put at least 5 key-value pairs in your dictionary.

3. Iterate through the dictionary.

    a. Print out a series of statements such as:

    ***Willie is dog***

4. Modify one of the values in your dictionary.

    a. Print out your dictionary with the change.

5. Add a new key-value pair to your dictionary.

    a. Print out your dictionary with the new key-value pair added.

6. Remove one of the key-value pairs from your dictionary.

    a. Print out your dictionary to show the change.

7. Print out the dictionary's keys.

8. Print out the dictionary's values.
