

Flow Control (while loop)

Chapter 02b

Can you figure out what this code will do?

```
import turtle
counter = 0
while counter < 4:
    turtle.forward(100)
    turtle.right(90)
    counter = counter + 1
```

SAVE AS: animal.py

turtle module – Drawing feature in Python

TRY other turtle methods

```
turtle.shape('turtle')
```

```
turtle.color('whatever color you want')
```

```
turtle.circle(40)
```
