

Math@Work – Guam Visitors Bureau

Recent news outlets have been reporting a dip in arrivals on Guam in certain visitor markets.

Your supervisor asks you to create a spreadsheet to compare the data from 2016 and 2017.

PART 1:

As part of your external activity, please visit the Guam Visitors Bureau website to obtain visitor arrival statistics.

1. Obtain visitor arrival statistics from 5 countries for the month of January 2016 and January 2017.
2. Create an Excel spreadsheet of the data.

	Arrivals			
	January 2016	January 2017	Increase/Decrease Amount	%Increase/Decrease
Country1				
Country2				
Country3				
Country4				
Country5				

3. Enter a formula to calculate the Increase or Decrease Amount for each country from January 2016 and January 2017. *(If you need to review, Chapter 3.3 covers Percent of Increase and Decrease).*
4. Enter a formula to calculate the Percent of Increase or Percent of Decrease for each country from January 2016 and January 2017.
5. Save as **Visitor Arrival Comparison (Jan2016 and Jan2017).**
