

**MEMORANDUM**

TO: Dr. Mary A. Y. Okada  
President

FROM: Dr. R. Ray D. Somera  
Vice President, Academic Affairs

SUBJECT: Integrated TRMA Planning Templates

DATE: March 31, 2011

---

This is to respectfully submit the integrated TRMA planning templates that have been put together by the AIER office, in close collaboration with the Deans and the Department Chairs. This is the result of several discussion meetings I have had with the Deans, Department Chairs, and AIER staff on the various kinds of data required to complete these templates.

The attached memo from the Institutional Researcher provides instructions for accessing these files electronically. This memo also comes with hard copies of the completed templates.

Additional attachments include a matrix of GCC personnel occupying space on campus, as well as a comprehensive inventory of rooms on campus, and their contents. This could prove useful for relocation purposes, particularly for construction projects that would require movement of people, furniture, and equipment.

Dr. R. Ray D. Somera  
Vice President for Academic Affairs

## Memorandum

**TO:** Dr. Ray D. Somera, Vice President for Academic Affairs

**VIA:** Dr. Virginia Tudela, Assistant Director, AIER *(Signature)*

**FROM:** Marlena Montague, Institutional Researcher *(Signature)*

**SUBJECT:** GCC Physical Master Plan TRMA Planning Templates

**DATE:** March 30, 2011

Since 1977, the Guam Community College has been the primary vocational educational institution responsible for advancing the education and technical skills of the island workforce. In line with GCC's comprehensive assessment process, the systematic evaluation of and the integrated planning for the physical facilities demonstrates the college's commitment to quality and student success. The framework for the evaluation and planning incorporates historical data and trends to support the design, space allocation, and capital priorities that allow for future growth and development.

In support of the update of the GCC Physical Master Plan, I have incorporated data received from the various departments for the TRMA planning templates and data extracted from the Banner database into one master file called **GCC\_TRMA\_MASTER**. The file contains individual worksheets titled to match the TRMA planning templates. Additional worksheets are also provided in the file and contain information useful in the development of the updated plan. The first worksheet titled "TABLE OF CONTENTS" provides a complete listing of the contents of the file and each worksheet title listed in the Table of Contents is a hyperlink (one-click access) to the specific worksheet data.

Based on the GCC five year Postsecondary Fall semester enrollment numbers, the five year Fall enrollment rate of growth is 43.78%. The annual Fall enrollment rate of growth based on the 43.78% five year Fall enrollment rate of growth (2006-2010) is 9%. Using the 9% annual Fall enrollment rate of growth, the projected Fall enrollment for the next six years using the Fall 2010 unduplicated enrollment count of 2542 is illustrated by the table below:

<b>FALL 2010=2542</b>	<b>9% Growth Rate</b>
FALL 2011	2771
FALL 2012	3020
FALL 2013	3292
FALL 2014	3588
FALL 2015	3911
FALL 2016	4263

Please see Figure 1-Postsecondary Enrollment and Projections.

When planning for the GCC secondary programs, the student population consists of high school students who are minors that require supervision, walking time to/from the neighboring high school campus to the GCC

campus, the location and availability of food and water, etc. Specific program facility needs must also be addressed with this student population, such as fire sprinkler systems. Specifically, George Washington High School students enrolled in GCC's vocational programs attend classes on the GCC campus. This student population was 661 in Fall 2009 and 714 in Fall 2010. Based on this two year population data, the enrollment rate of growth is 8% annually. Using the 8% annual Fall enrollment rate of growth, the projected Fall enrollment for the next six years using the Fall 2010 unduplicated enrollment count of 714 is illustrated by the table below:

<b>FALL 2010=714</b>	<b>8% Growth Rate</b>
FALL 2011	771
FALL 2012	833
FALL 2013	900
FALL 2014	972
FALL 2015	1050
FALL 2016	1134

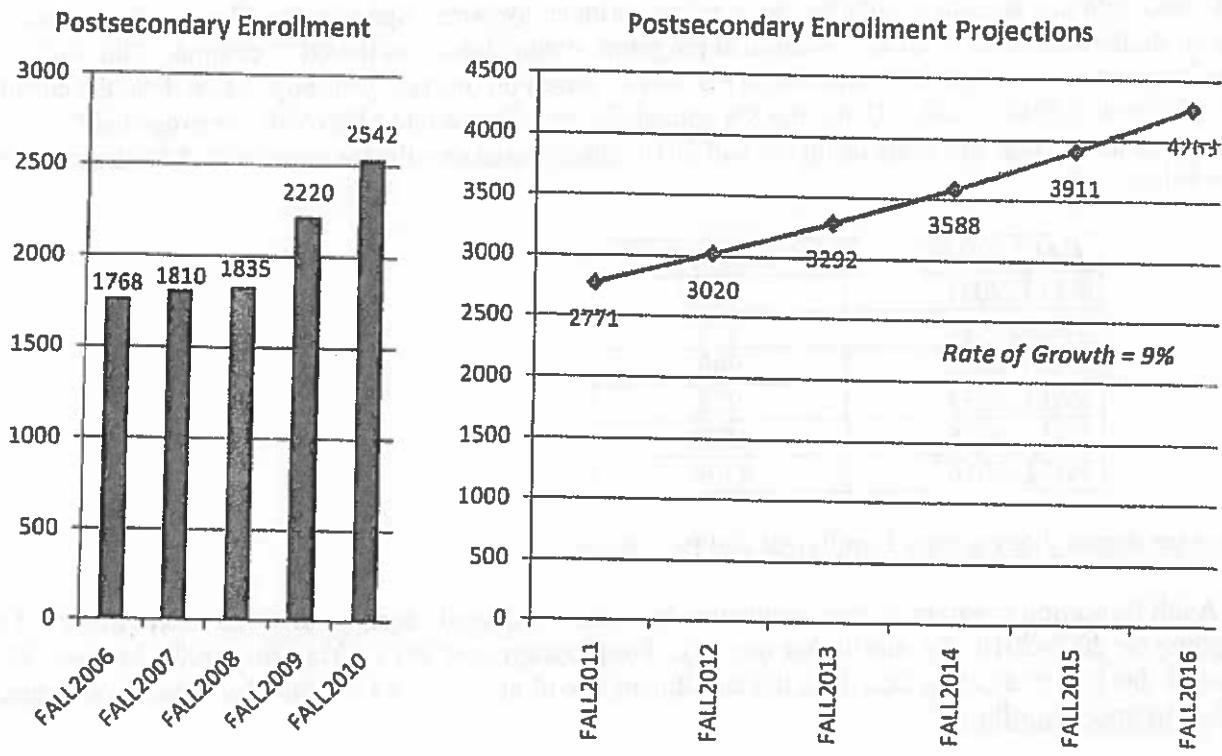

Please see Figure 2-Secondary Enrollment and Projections.

The Adult Education program student population has also consistently seen an increase in enrollment. For program year 2009-2010, the enrollment was 341. For program year 2010-2011, the enrollment was 488. Based on this two year population data, the enrollment rate of growth is 43% annually. Please see Figure 3-Adult Education Enrollment.

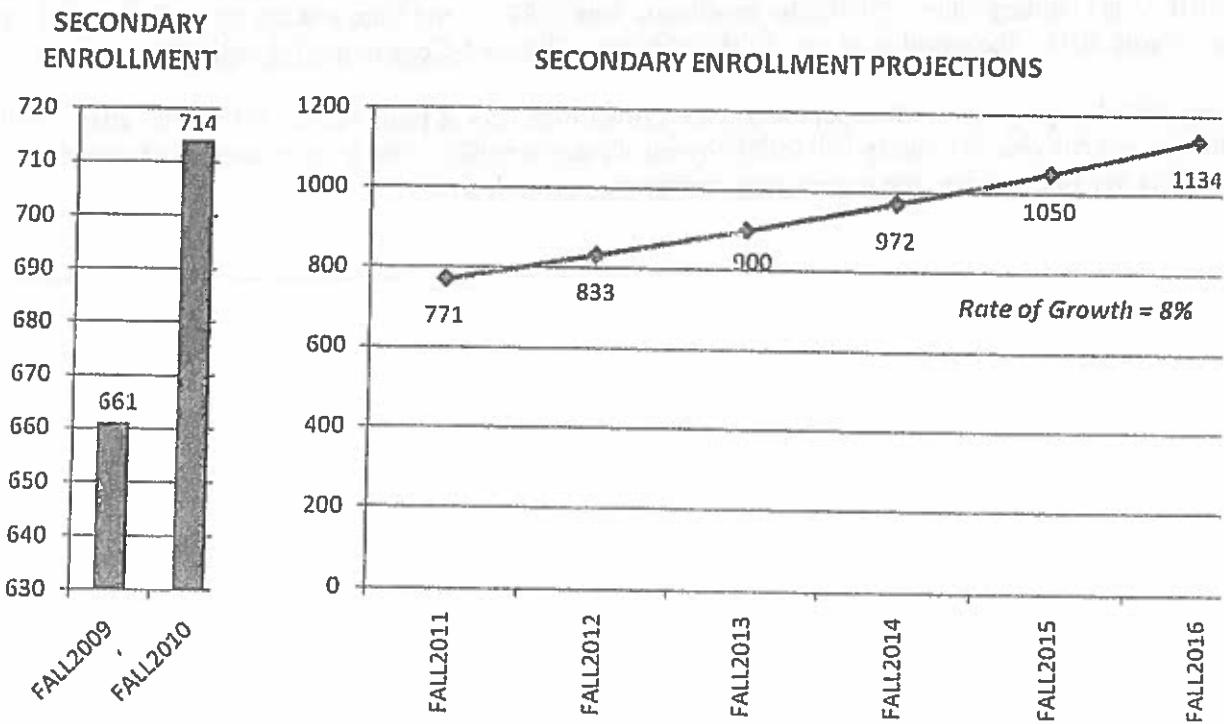

The Continuing Education program student population has consistently seen an increase in enrollment over the years. In the first quarter of the 2009-2010 cycle (July-September 2009), the enrollment was 2441. In the first quarter of the 2010-2011 cycle (July-September 2010), the enrollment was 2624. In the third quarter of the 2009-2010 cycle (January-March 2010), the enrollment was 2797. In the third quarter of the 2010-2011 cycle (January-March 2011), the enrollment was 3228. Please see Figure 4-Continuing Education Enrollment.

The Apprenticeship program student population has grown from 253 in Fall 2007 to 419 in Fall 2010. In Fall 2008, the enrollment was 271 and in Fall 2009, the enrollment was 424. The enrollment rate of growth averages 21% per year. Please see Figure 5-Apprenticeship Enrollment.

**GCC COMMENTS**

**Will the Physical Master Plan update cover 5 years or 10 years?**

Are there minimum space requirements for classrooms and other campus facilities outlined in accreditation standards for GCC? Please outline the requirements.

Is GCC developing new parking policies to coincide with the new parking actually provided?

Would GCC provide new bus stops for public transit on the campus to promote sustainability? What campus accessibility issues do GCC currently experience? Please identify locations. Are online education students required to receive on campus instruction or guidance as part of the curriculum? How frequent and where?

**difference in the instruction time and locations for Certificate programs compared to the corresponding Associate Degree programs? Do the students for each program attend class generally at the same time? Is one or the predominantly taught during the day. Please explain.**

**Does GCC intend to increase the Administration's visibility and campus interaction with the Physical Master Plan? What ideas have been developed by GCC on this matter?**

**Does GCC intend to address culturally diverse learning with campus facility design? In what ways can facility design enhance instruction and learning?**

**Does GCC project a shift in the demand for the degree programs offered? Please explain.**

**Does GCC plan to relocate some degree or certificate programs off-campus as part of the Physical Master Plan?**

**Please outline the conclusions and recommendations from GCC's SWOT analysis that GCC intends to address with the Physical Master Plan.**

Does GCC have specific intentions for campus facilities to reflect or incorporate the GCC Brand-Sustainable Campus; Building Guam's workforce for the military buildup; etc?

Does GCC still intend to relocate the existing Food Vendor facility?  
Has the new location already been identified?  
Does GU intend to relocate any of the Administration or other Student Services offices?  
Please identify the offices and their new location.

What is the typical schedule and location for GCC's Testing Center and professional examination services?  
Schedule= 8:00am-5:00pm Monday-Friday;  
Location= Technology Center Room 1106a

<b>ACCOUNTING– Associate Degree</b>	<b>GCC COMMENTS</b>
Current enrollment:	90
Projected enrollment:	96
Maximum student count per class:	AC100-01 = 30; AC100-02= 30; AC103-01= 20; AC110-01= 20; AC210-01= 20; AC211-01= 30; AC250-01= 20
Location and number of rooms used for instruction:	AC100-01 = C23; AC100-02= C23; AC103-01= D10; AC110-01= D10; AC210-01= D3; AC211-01= C23; AC250-01= 301
Are the current classroom/lab spaces adequate??	Current classroom/lab spaces are adequate but not ideal. It would be preferable to hold all accounting classes in the same classroom or at least in the same building.
Has GCC determined a need for more instruction space to serve this program? How much more space?	Not that I'm aware of
What location has been identified for the additional classroom/lab space?	NONE
Current faculty/staff count:	1 fulltime, 3 adjunct
Projected faculty/staff count:	1 fulltime and 4-5 adjunct or 2 fulltime
Location and number of faculty/staff offices:	D8B
Has GCC determined a need for more faculty/staff offices for this program? How many?	Not that I'm aware of
What location has been identified for the additional office space?	NONE

AUTOMOTIVE SERVICE TECHNOLOGY-Associate Degree/Certificate	GCC COMMENTS
Current enrollment:	193
Projected enrollment:	
Do the current and projected enrollments include Certificate Program enrollees ?	YES
Maximum student count per class:	20
Location and number of rooms used for instruction: Do Certificate Program students take the same classes with Associate Degree students? Or is there a separate instructional time and location for the Certificate Program?	Building 500 and 2 rooms
Are the current classroom/lab spaces adequate??	Students take same courses  NO, we have up to 60 students per time slot utilizing the shop.
Has GCC determined a need for more instruction space to serve this program? How much more space? What location has been identified for the additional classroom/lab space?	NO, we have up to 60 students per time slot utilizing the shop.
Current faculty/staff count:	
Projected faculty/staff count:	
Location and number of faculty/staff offices:	
Has GCC determined a need for more faculty/staff offices for this program? How many? What location has been identified for the additional office space?	NO, we have up to 60 students per time slot utilizing the shop.

<b>COMPUTER AIDED DESIGN &amp; DRAFTING— Certificate</b>	<b>GCC COMMENTS</b>
Current enrollment:	
Projected enrollment:	20 per semester
Maximum student count per class:	20
Location and number of rooms used for instruction:	Building 200, Room 204
Are the current classroom/lab spaces adequate??	NO
Has GCC determined a need for more instruction space to serve this program? How much more space?	NO
What location has been identified for the additional classroom/lab space?	Not aware
Current faculty/staff count:	Adjunct
Projected faculty/staff count:	
Location and number of faculty/staff offices:	Building 200, Room 200
Has GCC determined a need for more faculty/staff offices for this program? How many?	NO
What location has been identified for the additional office space?	NONE

<b>Degree</b>	<b>GCC COMMENTS</b>
Current enrollment:	127
Projected enrollment:	FA'12= 120; SP'12= 120
Maximum student count per class:	10 for CISCO and Fiber & Data; 20 for IT 1 & 2 and Electronics
Location and number of rooms used for instruction:	4 rooms in the tech center building 1000
Are the current classroom/lab spaces adequate??	NO
	Program offerings are growing so more space will be need eventually. In the planning we must consider a standalone building for Alternative Energy Class, which house virtual labs. For a more versatile teaching environment rooms would be adequate at 50% increase in Square feet to be utilized for practical application teaching.
Has GCC determined a need for more instruction space to serve this program? How much more space?	
What location has been identified for the additional classroom/lab space?	NONE
Current faculty/staff count:	2 FULLTIME; 4 ADJUNCTS
Projected faculty/staff count:	3 FULLTIME; 5 ADJUNCTS
Location and number of faculty/staff offices:	Tech Center, 5 offices
Has GCC determined a need for more faculty/staff offices for this program? How many??	NO
What location has been identified for the additional office space?	NONE

<b>COMPUTER SCIENCE- Associate Degree/Certificate</b>	<b>GCC COMMENTS</b>
Current enrollment:	307
Projected enrollment:	FA'12= 320; SP'12= 300
Do the current and projected enrollments include Certificate Program enrollees?	
Maximum student count per class:	20
Location and number of rooms used for instruction: Do Certificate Program students take the same classes with Associate Degree students? Or is there a separate instructional time and location for the Certificate Program?	4 (2 rooms in D-wing and 2 rooms in the tech center for the Microsoft Academy)
Are the current classroom/lab spaces adequate??	NO. D-wing computer labs, specifically D7 & D8 are not up to date and require more space. The Microsoft Academy space is okay.
Has GCC determined a need for more instruction space to serve this program? How much more space?	NO. Double the room size to properly accommodate the 20 students.
What location has been identified for the additional classroom/lab space?	NONE
Current faculty/staff count:	4 (3 ADJUNCT)
Projected faculty/staff count:	4
Location and number of faculty/staff offices: Has GCC determined a need for more faculty/staff offices for this program? How many?	1 Shared, Probably better to modify current space into cubicles and make more modern. Not sufficient for advising. Maybe need to have individual office built into classrooms. NO
What location has been identified for the additional office space?	NONE

**CONSTRUCTION TECHNOLOGY-****Certificate**

	<b>GCC COMMENTS</b>
Current enrollment:	NONE
Projected enrollment:	20
Maximum student count per class:	20
Location and number of rooms used for instruction:	Building 600= 3 rooms; Building 900= 1 room; Technology Center= 1 room; Building 200, room 204
Are the current classroom/lab spaces adequate??	NO
Has GCC determined a need for more instruction space to serve this program? How much more space?	NO
What location has been identified for the additional classroom/lab space?	NONE
Current faculty/staff count:	6 Faculty
Projected faculty/staff count:	6 Faculty
Location and number of faculty/staff offices:	Building 200; Building 600; Building 900
Has GCC determined a need for more faculty/staff offices for this program? How many?	NO
What location has been identified for the additional office space?	NONE

COSMETOLOGY– Certificate	GCC COMMENTS
Current enrollment:	78
Projected enrollment:	82
Maximum student count per class:	20
Location and number of rooms used for instruction:	3 (Bldg. 100, rooms 101,102,103)
Are the current classroom/lab spaces adequate?	NO. Too small for enrollment. Each section, lecture, theory and labs need adequate space to move about and practice their skills. This is not possible in the current rooms. For the lab (salon area): 1. Two more stations or chairs. Instructors have suggested that a wall be opened between 101 and 103. This will allow students to move about between classrooms without walking into room 102. Also, a separate water line should be provided in room 203. 2. Pedicure: 2 foot spas; currently none. 3. Manicure: 1-2 work stations; currently, two. 4. Esthetics (facials and body wax): 2 more; currently 2. This area should be converted to allow for more privacy.
Has GCC determined a need for more instruction space to serve this program? How much more space?	For Fall 2011-3 FTE and one adjunct. Public law requires two instructors to be present for every 20 students.
What location has been identified for the additional classroom/lab space?	None
Current faculty/staff count:	3 FTE but one is a limited term faculty.
Projected faculty/staff count:	Presently all are in bldg. 100. Three faculty offices away from the cosmetology classrooms are recommended.
Location and number of faculty/staff offices:	Yes. 1 FTE and 1 adjunct faculty.
Has GCC determined a need for more faculty/staff offices for this program? How many?	None. Renovation plans are in place. Currently, a temporary location is being considered. No definite plans have been made.
What location has been identified for the additional office space?	

<b>CRIMINAL JUSTICE– Associate Degree/Certificate</b>	<b>GCC COMMENTS</b>
Current enrollment:	
Projected enrollment:	
Do the current and projected enrollments include Certificate Program enrollees?	
Maximum student count per class:	30
Location and number of rooms used for instruction:	A28, A29, ROOM 104, ROOM 105
Do Certificate Program students take the same classes with Associate Degree students? Or is there a separate instructional time and location for the Certificate Program?	YES
Are the current classroom/lab spaces adequate?	NO
Has GCC determined a need for more instruction space to serve this program? How much more space?	Not aware
What location has been identified for the additional classroom/lab space?	NONE
Current faculty/staff count:	5 FACULTY; 1 STAFF
Projected faculty/staff count:	6 FACULTY; 1 STAFF
Location and number of faculty/staff offices:	A10
Has GCC determined a need for more faculty/staff offices for this program? How many?	Not aware
What location has been identified for the additional office space?	NONE

<b>CULINARY ARTS – Associate Degree</b>	<b>GCC COMMENTS</b>
Current enrollment:	100+
Projected enrollment:	200+
Maximum student count per class:	25
Location and number of rooms used for instruction:	400 Bldg
Are the current classroom/lab spaces adequate??	NO
Has GCC determined a need for more instruction space to serve this program? How much more space?	20,000 SQ. FT.
What location has been identified for the additional classroom/lab space?	NONE
Current faculty/staff count:	2 faculty; 0 staff
Projected faculty/staff count:	4 faculty; 1 staff
Location and number of faculty/staff offices:	400 Bldg; 1 office
Has GCC determined a need for more faculty/staff offices for this program? How many?	NO
What location has been identified for the additional office space?	NONE

<b>EARLY CHILDHOOD EDUCATION- Associate Degree/Certificate</b>		<b>GCC COMMENTS</b>
Current enrollment:		143
Projected enrollment:		150
Do the current and projected enrolments include Certificate Program enrollees?	YES	
Maximum student count per class:		Maximum enrollment for all classes is 30. Maximum enrollment for CD 221 Online and CD 292 Practicum are at 20.
Location and number of rooms used for instruction:		Bldg. 200, Rooms 202, 203 and 207
Do Certificate Program students take the same classes with Associate Degree students? Or Is there a separate instructional time and location for the Certificate Program?		All students take the same scheduled courses.
Are the current classroom/lab spaces adequate??		No. More classrooms are needed at the 4-7:30 pm time slots.
Has GCC determined a need for more instruction space to serve this program? How much more space?		No. 4-5 classrooms with adequate storage space for supplies and equipment, more faculty offices and classrooms with sinks and counter space to enable students to complete assignments.
What location has been identified for the additional classroom/lab space?		None
Current faculty/staff count:		4 FTE- 3 postsecondary; 1 secondary; 1 PS Limited Term
Projected faculty/staff count:		5 FTE: 4 postsecondary and 1 secondary
Location and number of faculty/staff offices:		Bldg. 200 room 201
Has GCC determined a need for more faculty/staff offices for this program? How many?		YES. 1 FTE. Room 201 houses all faculty, adjuncts and supplies. More space is critically needed.
What location has been identified for the additional office space?		None so far

<b>EDUCATION– Associate Degree/ Certificate</b>	<b>GCC COMMENTS</b>
Current enrollment:	378
Projected enrollment:	400
Do the current and projected enrollments include Certificate Program enrollees?	YES 30 with the exception of ED 292 which is 10 and online courses which is 20.
Maximum student count per class:	All students take classes at the same time.
Location and number of rooms used for instruction:	NO. Classes are tight for courses over 20 students. We have enough tables and chairs to accommodate 30 students, but space is limited. This is difficult especially when taking tests and role playing activities.
Do Certificate Program students take the same classes with Associate Degree students? Or is there a separate instructional time and location for the Certificate Program?	4-5 classrooms will be ideal. This will allow for office space for fulltime as well as adjunct faculty and classrooms so we may offer more courses, especially during the peak hours of 4-7:30 p.m.
Are the current classroom/lab spaces adequate??	NONE
Has GCC determined a need for more instruction space to serve this program? How much more space?	4 FTE- 3 postsecondary; 1 secondary; 1 PS Limited Term
What location has been identified for the additional classroom/lab space?	5 FTE: 4 postsecondary and 1 secondary
Current faculty/staff count:	1 office in room 201
Projected faculty/staff count:	No. 1 more office needed.
Location and number of faculty/staff offices:	None so far.
Has GCC determined a need for more faculty/staff offices for this program? How many?	
What location has been identified for the additional office space?	

<b>EMERGENCY MANAGEMENT-Associate Degree/Certificate</b>	<b>GCC COMMENTS</b>

Are the current classroom/lab spaces adequate??		No. Because class maximums are tied to the number of workstations, there is a limit of 18 students for most classes.
Has GCC determined a need for more instruction space to serve this program? How much more space?		Not aware

	<p>Not that I'm aware of. However, if the current occupants of TC1101 (College Access Challenge Program) could be relocated elsewhere, possibly to the new Student Center, expansion of the VisCom programs could become a reality. The layout of the portion of the Tech Building wherein TC1 101 is situated contains a classroom- TC1102, and a studio/classroom-TC1115 which could easily be converted into additional lab/classroom space. This conversion would accommodate the VisCom program expansion.</p>
What location has been identified for the additional classroom/lab space?	11 adjunct

GENERAL EDUCATION PROGRAM INFORMATION	GCC COMMENTS
MATH and SCIENCE	<p>1259 (1444 total seats or 87% filled to capacity) NOTE: in parenthesis is the total seats for each course.</p> <p>Math: 990 students [Adult High: 35 (70 or 50% filled); MA052:19 (50 or 38% filled); MA065:16 (20 or 80% filled)][Developmental Math: 794 (800 or 99% filled); MA085: 203 (200 or 102% filled); MA095: 301 (310 or 97% filled); MA108: 290 (280 or 104% filled)][Non-Developmental Math: 161 (248 or 65% filled); MA110a: 144 (188 or 77% filled); MA161a: 7 (30 or 23% filled); MA161b: 10 (30 or 33% filled)].</p> <p>Science: 269 total (326 or 83% filled): [SH103: 82 (84 or 98% filled); SH110: 116 (128 or 91% filled); SH130: 52 (60 or 87% filled); SH150: 18 (24 or 75% filled); and, SH141: 1 (30 or 3% filled)].</p> <p>Current enrollment:</p>

	<p>Generally, the fall semester experiences a higher enrollment than spring, recommend about two additional sections for each of the <u>Developmental Math Courses</u> (MA085, MA095, and MA108), one additional section for the MA110a course, the others are status quo.</p> <p>For the science courses one additional for the Marine and Environmental Biology classes, the others are status quo. Projected enrollment for Fall: Adult High:</p> <p><u>Projected Total Enrollment for Fall 2011: 1564 students or about 305 more students over spring semester, a 24% increase</u></p>	<p>50 students; Developmental Math: <math>794 + (3 \text{ courses})(2 \text{ sections})(30 \text{ students}) = 794 + 180 = 974</math> students; MA110: <math>144 + 30 \text{ (one additional section)} = 174</math> students; MA161a and 161b: 30 students; SI103-Marine Bio.: <math>82 + 24 \text{ (one additional section)} = 106</math> students; SI110-Environ. Bio.: <math>116 + 24 \text{ (one additional section)} = 140</math> students; SI130- 60 students; SI150- 30 students.</p>
Maximum student count per class:	30	

The MATH courses are distributed over 13 different classrooms (MA052, C24, AHB3117; MA065- C23, MA085- C22, C23, C24, A26, D2, D10, 3111; (The course is capable of being supported by online coursework, but due to the high demand for computer supported classrooms only 3 out of the 9, are held in classrooms equipped with computers. Recommend that all sections be placed in classrooms equipped with computers) MA095- A7, A26, D10, C5, AHB3117; (Except for two sections (2 out of 11), the course is taught in computer supported rooms. Again recommend that all sections be taught in classrooms equipped with computers) MA108-A7, D9, D10,A26, C24; (All except 1 (out of 11) are taught in computer equipped rooms) MA110- A7, A26, D9, AHB3114, 3108). The SCIENCE courses are all located in the Allied Health Building, 3111, 3113, 3115, 3117, 3120. The current inventory of classrooms used by science courses were designed to support the science course and are adequate.

Location and number of rooms used for instruction:

<p>Math-There are 8 different math courses currently being offered, 4 should be taught in computer equipped rooms or of the 39 sections of classes that can be supported by computer equipped rooms 31 are in those rooms. The eight sections are primarily MA085 classes. Recommend that all sections of MA085, MA095, MA108 and MA10A, please note that 31 out of 39 is historically the highest rate. Science-The science courses are adequately supported thanks to the new Allied Health Building.</p>

GENERAL EDUCATION PROGRAM INFORMATION	GCC COMMENTS
<b>DEVELOPMENTAL ENGLISH</b>  Current enrollment: Developmental English courses continue to see an increase in enrollment. Projected enrollment: Maximum student count per class:  Location and number of rooms used for instruction:	FALL 2010 Enrollment = 584 (EN100B= 58; EN100R= 206; EN100W= 320); SPRING 2011 Enrollment= 623 (EN100B= 45; EN100R= 210; EN100W= 368)  EN100B= 15; EN100R= 20; EN100W= 20  EN100R: Fund. Of English/Reading (Fall 2010-room A-6 for 6 sections; room C-5 for 2 sections; and room C- 25 for 2 sections)(Spring 2011-room A- 6 for 8 sections; room C-5 for 1 section; and room C-25 for 1 section); EN100W: Fund. Of English/Writing (Fall 2010 and Spring 2011- room C4 for 32 sections).

No—One classroom with computers houses all EN100W courses/ would like to add one or two other classrooms with computers for EN100W; Need one or two additional classrooms with comprehensive classroom libraries to best meet the needs of students in EN100B and EN100R; Would also like wireless capabilities available within classrooms for students who can download novels or research authors and novels; Would also like 2-3 computer stations/laptops available for students to research authors and novels as needed	Not sure; but as DC I believe that EN100B needs to identify one or two classrooms which can house teaching materials specifically for this student population; EN100W can serve more students (increase course sections) with two additional classrooms with computers.	Has GCC determined a need for more instruction space to serve this program? How much more space?	What location has been identified for the additional classroom/lab space?
			NONE

5 FULLTIME FACULTY; 1 FULLTIME LIMITED-TERM; 1 STAFF; In Fall 2010, there were 14 Adjunct instructors for 17 Courses; In Spring 2011, there were 11 Adjunct instructors for 16 Courses.	Enough adjunct courses to justify need for a minimum of 2-3 more FT Developmental Education instructors.
Projected faculty/staff count:  C-3 is the English Office and houses the DC, 1 Staff, 1 FT Instructor, 1 FT-LTA, 2-4 Tutors/Tutorial Sessions, and 1-2 Work Study Students; 1 FT Instructor is in TC1103; 2 FT Instructors are in Room 206; 1 FT-LTA is in Room 206	Has GCC determined a need for more faculty/staff offices for this program? How many? What location has been identified for the additional office space?  Yes, 1 FT-LTA Developmental Education position may transition into a FT position at the end of Spring 2011  NONE
