Program: Accounting, A.S.
Minimum Credits Required: _____

Accounting, A.S.

Program Mission

The mission of GCC's Accounting program is to develop a workforce that accurately and professionally addresses the accounting requirements of the dynamic business environment on Guam and in the region.

Program Description

The Accounting program will train individuals for employment in accounting fields and provide employees working in accounting-related fields with the knowledge to upgrade job skills. Students are offered opportunities to experience learning environments through service learning projects that educate, empower, and enable students to be civically engaged—gaining skills that lead to participatory leadership, effective citizenship, and increased volunteerism.

Program Student Learning Outcomes (SLOs):

Upon successful completion of the AS in Accounting program, students will be able to:

1. Describe the steps of the accounting cycle using a computer based program.
2. Perform necessary procedures at each step of the accounting cycle for various types of business.
3. Discuss skills needed to sustain careers in accounting.
