## 10. Summary of the MOST HELPFUL aspects of the Orientation indicated by Students: (55 Responded)

- Admissions & Registration - Financial Aid - Assessment & Counseling
A lot of the information given was really helpful, I really loved how they went into detail about keeping each student safe physically and mentally, no matter the issue. Even if its a personal issue that doesn't have to deal with school, they would reach out and help the best they can.
Ability to ask questions in real time
Accommodative services and guidance counseling.
All of it
All of it honestly
Although I was already aware of majority of the services that GCC provided, the admission/registration and the financial aid portion of the orientation gave me an insight on what I should do to avoid spending more costs necessary and such.
Aside from the presentations themselves, the Q&A's at the end of each presentation was easily the most helpful on learning more about who makes up the GCC staff and the goals of the community college as a whole. Since most questions that my peers asked were ones that were also on my mind, everyone's efforts easily clarified any misinformation or confusion I had prior to the orientation.
Communication with students
Counseling

Everything that I need to learn as a new student like where the library is at and where to ask for help when I need one.
FAFSA / Counselors

FAFSA information
Financial aid
Financial aid
Financial aid, registration & counselors
financial aide advice
Having orientation online worked with my schedule, allowing me to attend.
How everyone who presented asked if there were questions when they finished and answered if there were any questions.
How the admins answer the student's questions as soon they saw it. It helped me a lot and the other student.
I find it most helpful that the officers were able to get the students' questions to be heard and answered.
I found the aspect of Title IX and the Learning Research Center-Library the most helpful during the orientation.
I found the library information the most helpful as I currently am thinking about getting my books soon and I was able to get my questions answered without any difficulty.
I was able to receive the emails and contact numbers of each office at GCC in case I had any further questions
Information on financial aid and reviewing mygcc. Areas I may have missed or never knew about.
It was very informative on where we could find services for different needs around the campus.
Just the general tutorials on how to do something or what to do in a certain event
Library /resource center
Moodle and MyGcc portal
N/A
Noodle, CSI
Question that were asked and answered
resources, specific information
Student services
Student support services
That everyone from the gcc team shared what their section was all about
that I am able to bring my self defense tool for my safety just in case
The add/drop of classes- when to do it and how
The administrators were able to answer all questions immediately.
The aspects of the orientation that I found most helpful was the handbook and when the counselors were talking about how we can come to them whenever there is a problem with your teacher or anything else. I think that, that is the most helpful.
The content was both detailed and concise, and by all means, because it was a video-based lecture, it allowed me to see who it is exactly that can help me with my GCC journey -- compared to my experience at UOG, I didn't know how endearing it all can be.
THE DATES
The different types of programs introduced like student support services.
The Environmental Health & Safety presentation was the most helpful
The financial aid information
The health and safety of the campus
The information for registration was very helpful because I learned information that I didn't know previously.

The information given was very helpful.
The presentations
The presenters in the orientation were very helpful. I know where to go if I need help with something specific! I'm excited to start this semester!
The slide shows we're most helpful. It broke down everything a new gcc student should know.
the ways of contact each presenter provided
They answered questions that students were curious about.
You guys addressed the resources needed by us students and where to find it, which I believe is the best for us just coming into this new life

## 11. Summary of the LEAST HELPFUL aspects of the Orientation indicated by students: (52 Responded)

all were helpful
Everything was helpful.
Ggc students handbook
Health services
Health services Center didn't specifically go over the PPD and what they offered to do as service. They did show a slide with a lot of words on it but it wasn't easy to read. It was interactive but not as informative to what the students may already expect.
I don't see any least helpful in that orientation all that we talked about is straight to the point and all of it is helpful especially for a new student like me
I don't think I didn't find anything in the orientation least helpful.
I have no specific aspect of the orientation that was the least helpful to me.
In my opinion, the environmental health and safety felt more of a review than actually learning something that can be helpful.
library
LRC
Moodle online learning.
N/A
No significant complaints.
NONE
Pop Quiz
Probably having to list things during the Health Center's presentation. I think it's more useful to actually talk about what services Health Center provides or what to bring for a health clearance.
Questioner prior to the orientation so that it would be easier and quicker to address during the presentation.
Questions early into the presentation were often overlooked -- one attendee in particular couldn't quite voice his concerns on the spot and was immediately ignored. Whether or not it be technical issues to blame for this, and I do understand the question was answered later in text, but I do still feel for my peer and what that experience must have been like for him in the moment.
Repetitive answers and giving information already known instead of what isn't (in some occasions)
RFC because I didn't get most of my questions answered.
Some needed information wasn't displayed in the title slides for each department. It would have been helpful for screenshots in case we needed the information later on.
The fact that it was online, and people with questions had to message first instead of just chime in for questions. There were a lot of people who had questions but weren't addressed out in the open due to having to type the questions or concerns they had.

The fact that it was virtual..... Its hard for me to pay attention to everything, But I hope I got everything
The orientation did a great job of giving us a lot of information, however it could get very taxing for students in this age to keep focus on an online orientation. I fell victim to it too, however, I am fortunate to have been aware of majority of the information that was shared prior.
Time taken
Too lengthy

## 12. Responses and Suggestions from students to improve future New Student Orientation: (51 Responded)

I don't have any and the orientation is nice and easy to be honest
A physical orientation would be the best option so it's easier for new students to know the way around.
An in-person orientation and an online orientation can accomodate those who do not have electronics, or are not very focused when it comes to virtual sessions like these. As for online, that can accomodate those who are unable to attend the former or are uncomfortable in an area with a lot of people.
Better communication system because some presenters could not hear the questions being asked by the student but can be heard by the audience on zoom.
don't do virutal
Don't have it during Zoom.
Ensure a set place the orientation was going to be held early on. Didn't find out about the orientation location till the morning of.
Everything was great for my experience
Financial help
For some who can't join or are having problems connecting, a shared slides of the presentation.
How questions are conducted. But also some of these question could've been answered with the FAQ on the GCC website. They just don't know how it works, entirely.
I don't have much in the way to offer to improve this service, but I do trust in your process; it was in all, a very informative experience for me -- one I dearly wish I had been able to attend at UOG back when I started in 2019.
I don't particular suggestions to recommend to improve this Orientation for the future semesters.
I suggest more campus tours to help new students find their classes and other resources on campus.
I truly enjoyed when the presenters interacted with us, especially through the polls, "quiz", and having us answer their questions in the meeting chat. That was very engaging and actually made the information stick. Overall, everyone did great, I'm glad I attended!
In person
In person orientations would be better than online
It would be interesting if more of the student members participate with introducing administrative or presentations.
Keep it brief and simple
Make meeting more efficient
Make the orientation shorter because some people can loose interest in listening.
Maybe a last round of q&a would be more helpful in future presentations.
Maybe more useful information from the health center.
Maybe provide students with a general agenda of what's going to be talked about prior that way students can hold their questions for the right presentation.
More examples
More interactive content, physically engage students, have a fun presentation rather than a boring one.

Nothing
nothing from what I can remember
Overall the orientation was a good way to know your way around the school, more or less. I would recommend to find a way to make it somewhat shorter or more interesting. I caught myself losing interest here and there, and a fair amount of people started to leave the orientation throughout the whole thing.
Perfectly fine! No
Please don't make it virtual again.
Shorten the time
the quiz the counselor did was fun. i feel that kept my attention
time management
To be oriented on the steps or procedures on how to swap any subject that is going to be dissolve due to lack of enrollees.
to have a on ground tour of the campus to better locate where certain buildings are

### **SUMMARY of #'s 3 & 5**

3. Give an example of how you will use the information from the presentations in the classroom, your personal life, your workplace today, or when you enter the workforce in the future.
- Budgeting. I intend to apply 50/30/20 rule in efforts to stabilize my financial status.
  - I will use the financial tips to help me fund my future in order to achieve higher learning without having to take significant loans.
  - Incorporate a budget plan to ensure financial stability.
  - I enjoyed the different topics at this conference and it is quite helpful to me in my future
  - financial future, how to budget properly, how to save up.
  - I will create my new budget planner and create me a resume.
  - This presentation gave me further knowledge to make certain decisions
  - I would use this in my personal life. It will be great to practice this within many aspects of my life.
  - I will use the information given to me by acknowledging it everyday. I now understand when the use of social media is appropriate, how to successfully transfer from GCC to UOG, and how to properly prepare for an interview.
  - Budget your finances
  - I will use this information to remind myself about my cost and spending so that I responsibly manage my finances.
  - I was very interested in the presentation to obtain good credit. I believe that is very important in life.
  - i will do my resume following the tips from the presentation.
  - I love the topics that were covered during this conference! I will use all the tips given for each presentation by being more mindful about what I put out there when it comes to social media and on my resume as well. I will apply the skills I learned from Financing Your Future by creating a budget and effectively saving money. With the times that we are in, the information given during How to Ace Your Virtual or In-person Job Interview really gave some great pointers when doing virtual interviews.
  - I am in need of budgeting so this presentation on it gave me ideas on what to do. I just need to find a way to create a budget plan with my bills.
  - I would use the tips I learned about making a resume into a guide for me. When I do start to work, I would have something to help me make a good resume.
  - I can ensure that I can fix my budgeting. I can also make sure that I have good credit. I now know and understand the main points on how to build a resume. Maybe later in the future I will use what I learned from the presentation for when I enter a workforce.
  - Everything matters even the little things
  - Provide friends who didn't attend with the information I received today
  - I'll attempt to budget since my aid has been cut off a bit.
  - I do have enough to cover this semester, but i am unsure about future semesters. So I'll try to look for a job at the moment. As someone who lacks work experience, the job seeking and resume tips would help me land a job.

- I will use the budget strategies to help me save money and pay for bills.
- When I start working again, I will have a different strategy to save
- Being a student and having a job, the financing your future helps with budgeting with my paychecks
- In the classroom, we'd be able to share photo's in ways that does not portray unprofessionalism. I would be able to budget my expenditures, and be able to transfer to UOG easily to better my future.
- I will handle my money better (ie. budgeting) thanks to "Financing Your Future." I'll try to keep my resume simple, but attention-grabbing. I'll also try to join more extracurricular activities.
- I will use "Financing your Future" to improve my money habits.
- I will take what I learn into practice in the near future. I will also redo my finance budgeting as well.
- Definitely making a budget plan, reviewing my resume and managing my social media accounts more strictly. Virtual interview presentation presentation felt biased. Transition to UOG will help me apply after I graduate.
- Apply to real life.
- Transition to UOG
- I will properly be dressed, ready, as well as prepared for my interview as well as be professional in my everyday life.
- How to manage my future budgeting and how to conduct myself in a job interview.
- Keep your personal accounts private.
- Budgeting, making a resume, job interview. Making smart choices with money. Making proper resume when applying for a job. Do's and don'ts during a job interview which can help me get hired.
- Work on resume for any job.
- Because these components are the main points to building a life or future solutions.
- The advice given can be used to better prepare myself in any of the categories above.
- I will use this info in gaining employment in the future.
- I will use these tips to save money and help me on my interviews.
- using social media platforms in an advantageous way to help brand myself when seeking a job, instead of just using it solely for entertainment.
- In regards to the resume writing tips, I plan to review my current resume and use the tips provided to improve it.
- I've been planning on going to GCC so the last presentation helped me.
- For my professional profile, I should get a picture of me being professional.
- Using a proper social media profile for my upcoming work.
- Keep track of my spending money.
- Definitely will use information in my professional life and for future reference when furthering my education.
- Doing my resume, future job interviews, budget planning, social media stuff, going to UOG.
- It helps me to improve and gained knowledge to what to do more on managing my financing, social accounts, job skills, ace job interviews, and a perspective of continuing college degree.
- I can use budgeting in the future to help build savings for my family and I. I can use the job search and resume writing tips when I start applying for jobs.
- Being professional and know not to answer with a simple yes or no when being interviewed for a job.
- I would notify or share that edge help me to learn and have knowledge to know about real world.
- Resume format and information. Budgeting tips and tricks.
- I will use tips for writing a resume and how to ace my interviews.
- I will use this information to better enhance my performance at work.
- This will help me give more insight in my decision making in regards to job seeking interview and life/financial decisions.
- I could apply the financing within my school expenses and my personal life.

5. What could be done to improve the student conference?

- I enjoyed it.
- No changes! Great Presentation !
- No comments
- Nothing, it was perfect !
- no changes needed

- N/a
- I thought the conference to be done very well.
- I think the student conference was very great. Nothing needs to be improved.
- Please provide short breaks between each topic.
- No improvement needed. 😊
- I think small breaks during every other presentation would be great to allow us to stretch or refresh our mind.
- There is nothing I could think of to make the conference better.
- No changes needed. Everything was perfect! the presentation was great!
- Being one of the speakers
- Everything was perfect
- Make two conference dates, one for f2f and one for online. Hearing a stage mic through zoom was unpleasant. Or at least use the mic far from whatever device the zoom was hosting on.
- None
- Better management for zoom audience. Other than that, it was great
- N/A
- None
- I recommend for the students to have a break. It was speaker after speaker with lots of helpful information. At least a 10 minute snack break.
- None. Great job! :)
- Provide more comfortable chairs.
- Incorporate breaks! Maybe more visuals/stories.
- Offer 10 minute bathroom breaks. Maybe offer water.
- I wish I could snack.
- Provide food for those attending, as well as tables to sit at. Since it did start at an early time and end at lunch time to please provide food because some people attending are diabetics. As well as provide breaks for everyone due to us sitting from 8:30am - 12:30pm.
- No comments.
- Add breaks in between speakers.
- None.
- Get more individual feedback from students to create a back-and-forth.
- We need breaks. Also, we need more activities to stay engaged. The Ace your Virtual In Person Interview seemed biased.
- To improve myself and to be knowledgeable.
- More interaction between the students.
- Incorporate breaks in between segments.
- Nothing the presentations were amazing.
- I don't think there is a need to improve.
- Have a little 5 minute breaks
- Workforce speakers can be invited to share their experience.
- Have more presentations and giveaways.
- N/A, it was great!
- All presentation is nice and very interesting. Student conference is awesome. Thank you for providing use with informations that are needed for everyone.
- Maybe adding additional information to learn or to be aware like finding job what you want to do for a living or building communication skills.
- A few minutes break time would've been nice.
- Add a break time after the 3rd guest speakers.
- It would be great to have more student interaction and activity.
- Everything was fine. They went indept about their presentation and we gained some new and useful information.

## **SUMMARY of #'s 7-9**

### 7. What could be done to improve the student conference?

More participation	More career panelists from different jobs.
More activities at the workshop	Less games and more sessions.
More games and prizes at the workshops	Have the panelists/presenters engage more with the audience instead of just a select few.
Find a way for students to come up faster for activities	Maybe add another session to gain more knowledge.
Tripod for big group photos	Nothing it is fun and I would like it to do it again.
I don't have any complaints. Its good	More opportunities to benefit everyone.
For the "You're Hired, Now What?" Session, I wish to have something along the topic of financial management.	Multiple screens to see more.
In-depth topics	Nothing I can think of at this time.
Nothing I had a great time. I enjoyed the way this conference was done this semester.	It was an awesome event :)
More workshop options	All was good
Maybe add more activities to interact with other professionals.	More games
The time. It would be wise to extend the time for more activity.	This was my first conference and it was great!
Microphones when presenting in the salon workshop.	Stress management workshop.
The open panel felt a little short	Getting all people in this conference involved in your activities.
More presentations	\$20 gas card for prizes
More about awareness in the career field or what to expect.	More skillsShops.
Maybe some management skills. Like money, or time management	Have more time.
Maybe more time asking questions.	None, it was a good student conference.
Bigger prize and time for each events.	Stay on time.
Section students by major and have the panelists talk to them one-on-one to talk about profession in depth.	More SkillsShops
Display the Instagram hashtag on the projector when announcing for people to take pictures, I didn't hear what tag to use.	More sessions
Designate better parking, overall, event is well organized.	Guest speakers who are enthusiastic and have humor.
Fix the technical difficulties and better music.	This is m second and last one and I ABSOLUTELY loved it!!! :)
The students play a game and everyone was having fun.	More prizes and more time.
Following the program and being more timely (break was cut short due to time management)	If there are more chairs and tables.
More desserts.	Have more SkillsShops.
Really enjoyed this conference.	More fun games like the jeopardy games.
Have a construction trades skillsShop	The conference was excellent!
More interaction.	Be ready to account for students when they arrive for events. This morning had to stand and wait until staff was ready.
	I think more group activities and participation so everyone can enjoy.
	Time management
	Maybe start the conference at 8:30am
	More activities to make sure all students are given a chance to participate.
	Maybe a Kahoot style game where more participants can compete.
	More activities

Follow the rules of the games that you make.
Games in the beginning and the end. It is too long, and dragging it out at the end gets boring.
Powerpoint/Displays during speeches
Have powerpoint/displays during speeches to keep the audience attentive
Nothing - you guys did great!
More Family Feud
I believe it was well organized and the activities were fun!
I think this conference was pretty good. Better than the last Need to Lead Conference. I believe that I benefit greatly from attending. Nothing to improve. Thank you, it was a very cool conference.
More job search options for students to choose
Too cold in the room, make it warm
Nothing, it was great!
Enunciate more clearly the words of the COPSA President and Vice President because the way

they read is not clear to hear. It sounds like they were biting their tongue.
I like how every year it keeps getting better and better. Very well organized.
Although it may be out of our control, I only had issues with audio from the PA.
Try making it on a Saturday so a lot of students may attend
Beginning. Sign in could have been smoother.
Students should rehearse their speeches/preludes.
Maybe a bigger ballroom
Nothing, it was great!
More games
More activities
More games
Let students know what is the cut off time to arrive before their spot is taken.

## SUMMARY of #'s 8-10

### 8. What could be done to improve the SkillsShop?

What could be done to improve the SkillsShop?
I enjoyed the workshop. The mock interview question will definitely help students entering the workplace.
Nothing it was a good SkillsShop.
Maybe more group based talking / practices.
The SkillsShop was excellent.
I really enjoyed this SkillsShop. It was very well put together and very informative and interesting.
Maybe put two or more videos as an example.
Better PowerPoints skills - Fill up the empty space.
More advice about interviewing.
I feel as if the panel questioning part of the SkillsShop took a little long. It could have been narrowed down and more time efficient.
More hands-on activities.
I feel like the presenter could go into more detail about interview tips for those with no work experience yet.
Nothing really. A little more videos. Make it more fun.
Nothing. The SkillsShop was great!
Just louder speaker next time, I was shaking my head for no reason. I never heard a single full sentence.
The presenter could have given a mock interview demonstrating the do's and don'ts of interviewing. Also, the PowerPoint could have highlighted some things that interviewers are looking for,
Most people know the basics of an interview. Maybe it would be best to instead go deeper into fine tuning skills for a job interview.
The presenter could speak a little louder. Students asking questions should ask questions out loud.

The SkillsShop was great. I believe all the information given was very useful and it will help me improve myself when having an interview.
Using a microphone. I could not really hear the speaker.
The SkillsShop was already good and I think the presenter should have asked volunteers to go up and ask some practice questions.
Print outs of the presentation
The SkillsShop was very well conducted!
Provide microphones so we could hear presenter clearer.
It could have been better if a microphone was used.
All was prepared and presented well.
Speak louder.
None. Very good presentation! I kept listening and was very engaged.
None. Presentation was straight forward and followed by an activity.
More group activities and videos. Less slides and lecture.
Maybe make it a little shorter, so we do not get as easily distracted. Add games.
Use a microphone
Nothing. It was great.
PA System.
For powerpoint presentations or any video presentations, best check if they could be played right away smoothly so that you won't waste time or wish to fill in the time.

### 9. Give ONE example of how you will use the information from this SkillsShop in the classroom, your personal life, your workplace today, or when you enter the workforce in the future.

I know to practice before going to an interview.
I will practice more and have at least one question ready to ask interviewers.
For my future job interview, this SkillsShop will enhance my understanding of the interviews and how I will properly approach it.
Using her advice in her powerpoint, I will always practice and keep a positive attitude when applying and doing interviews.
This SkillsShop will greatly help me prepare for future interviews since I now know what the interviewer is looking for.
Job Interview

For job interviews.
I will use it to prepare for any upcoming interviews I might have.
To give eye contact to the interviewer while talking or to a person in general.
Be relaxed and confident. Practice is key.
I will practice often so that I would be ready when the interview comes.
I will learn how to stop shaking my leg for interviews and I will not cross my hands because I do not want to build a border wall.
Practice interviewing with my friends and gain more feedback from them.

I will use this information in future endeavors.
Communication skills is one example that will help me everyday.
I can use the information to help me in getting my first job and having my first job interview.
Being interviewed for a job. This information was truly helpful.
Well first off, I have never been interviewed, but now since I went through this SkillsShop, I feel fairly confident for my first interview.
I learned to pay attention to my body language and how I come off to others.
Bring an umbrella.
I can use the information I learned today to prepare for future job interviews.
Practice to make the best interview.
Always strive to improve yourself daily.
I will take my time to do some research about the company and use the useful tips that she provided me to be prepared for an interview.
I learned that effective communication is very important to land a job.
to enter the workforce after finding a job
Definitely use the information provided to help brush up on prospective interviews.

Be on time and be prepared!
I will keep this in mind for when the time comes that I have to apply for a job.
I can apply these techniques to future interviews after graduation.
To help me practice for a workplace interview.
I will keep this information in mind for when I plan on searching for a job.
Public speaking
I will practice on what to say during future interviews.
I will use this information to better prepare for my first interview.
I will be more aware of my body language.
I will know how to better prepare myself for a job interview.
I will use what I learned when I go in for a real interview.
How to look presentable for a job interview and the questions you can ask yourself for interviews.
The practice questions were really helpful!
Applying for a job.
I will take in to rest well before an interview because it does make a difference and a lot of people do not take that into account.

#### 10. What other SkillsShop topics would you like to see offered in the future?

Maybe how to handle stress in the workforce within the operation of the company.

**25. What aspects of this Orientation did you find MOST helpful?**

*Academic Advising & Career Placement (2); All contacts and services; All of the above; All the knowledge of each areas of GCC; Class accommodations with regards to Covid-19; Counseling; Everything was helpful (8); FAFSA; Financial Aid (5); Financial Aid and Counseling; Financial Aid and navigating the GCC website and portal; Having a spokesperson from each section; How each member of each department was able to inform and explain their particular area of service with much detail and enthusiasm. I could really feel their desire and sincerity in wanting to help the students of GCC; I found it most useful when they provided slide shows to help go through what they were talking about and let us know that if we had any other questions who to speak to and where everyone would be at; I found the Q&A chat extremely useful because it was a direct interaction between students and the departments for any concerns that we had; it was all very informative; It's helpful to know resources for future assistance in the semester; my questions were answered by the speakers; Navigation of the Website; Q and A (2); Screen Sharing information; Student services; The information provided by all the different departments, especially in the Academic Advisement and Career Placement department; The in-person COVID-19 restrictions and procedures*

**26. What aspects of this Orientation did you find LEAST helpful?**

*All aspects were helpful and everyone explained everything so well; All were helpful; Brain teasers; Environment and Health & Safety Presentation (2); Everything was helpful; Financial aid portion and then lots of questions (3); Health and Safety it took so long and my family was waiting for me to eat; How to navigate the GCC portal; I found all information provided to be helpful to everyone; I found that the orientation was good but probably would've been better if it was face to face; I found the Q&A to be very helpful; I want to learn more about the campus and how to get around the campus without difficulties; It was VERY helpful; Mr.Hosei's portion on safety; N/A (4); N/A, all aspect were helpful.; N/A. All topics discussed were very helpful; None/Nothing (17); Nothing much, all were helpful and informative; Nothing really only the technical issue was a problem; Some info are already well displayed on the websites; Some technical difficulties, didn't understand much; Technical difficulties, brain teasers; The disabled president help me answer my question; Too long; Took kind of long. i was getting hungry*

**27. To better serve our GCC students, what suggestions do you have for improving the Orientation program for future semesters?**

*Having the announcements for Orientations delivered to existing students' emails; I couldn't think of anything else, because in my opinion the virtual orientation went through everything thoroughly and informed us where to go and who to speak to if we had any other questions; I don't know if there's a need for improvement; I suggest that the community should prepare their PowerPoint on time so that the students don't be late for another class or their ride home. Also let the student know when the classes are instead of two days or a week in school which are the online classes; It was good; Keep it the way it is; Lessen number of questions allowed per section; More interaction from students; More simplified; N/A (6); No, I found everything to be reliable; None (11); Overall, I think the Orientation went well. I stuck around for the 2 1/2 hours; Provide a PDF packet via email regarding website use and resources or navigation guides for website to chop down orientation time; Short presentation from different majors in order to have a glimpse of what each department is like, to help lost students who still do not know what career path to take; Since most activities are online, have a run through with the faculties to avoid any technical difficulties in the future; Sound improvements during presentation(no sound during videos); The only problem I had with the orientation was the technical difficulties.*

- The financial aid cause I was most curious about that.
- Financial Aid
- MyGCC navigation procedure.
- All the useful information provided for us new incoming students.
- All aspects were informational.
- The individual people explaining and going thru each category of student support.
- I found everything helpful.
- Everything.
- The entire orientation was helpful.
- Play that tune
- Counseling and Title IX
- I found that "Title IX", "Reach for College", Environmental Health & Safety" most interesting and informative #BLING BLING
- FAFSA Info
- I found Environmental Health & Safety very helpful. Due to me having night classes, I know there are nightly security. #BLINGBLING
- I found the Environmental Health & Safety the most helpful #blingbling
- Financial Aid & Student Services
- All presentations were helpful
- Individual Presentations
- Online Learning / Moodle
- Almost everything.
- The Financial Aid, Library, The Student Handbook and Counseling other that, everything was helpful.

- Faculty and staff
- Financial Aid and Online Learning
- The presenters were very informative.
- Getting info on variety of services available.
- Environmental Health & Safety
- Interactive help
- Everything
- Learning Resources Center & Health Services
- Tips and info given.

- None
- Everything was helpful
- All presentations
- Financial Aid, Reach for College, Technology Service
- Campus Tour, Presenters, Zoom Option
- Information regarding work study opportunity, counseling opportunity & guidance, option to attend via zoom.

#### 11. What aspects of the Orientation did you find LEAST helpful?

- N/A
- None
- None
- Nothing
- The orientation was great.
- How cold it was.
- None of them.
- None, for all that was shared was helpful.
- While I do find it helpful, I don't find it entirely necessary to show the full process (on the website), i.e. showing where to register for classes virtually.

- N/A. They were all helpful.
- Health Services
- None!
- N/A Everything good and helpful
- Play that tune
- Nothing. Everything was helpful.
- CSI
- Everything was found helpful.
- Nothing, all went well explained and helpful.
- Health Services Center

- Nothing. Everything that I heard was very helpful.
- All were good and helpful.
- No comment.
- Presenters all did verbal presentations - would have been helpful to see more important points on the PowerPoint slides.
- Nothing was least helpful.

- The nurse
- All of them were helpful.
- The "guess the song", but it was a good idea, I really liked it.
- COVID policies
- I didn't find any aspects unhelpful.
- None. Everything was helpful.

12. To better serve our GCC students, what suggestions do you have for improving the Orientation program for future semesters?

- N/A
- None
- None
- I love the little games like "name that tune", it ensures the attendees stay engaged.
- Keep up the great work.
- None so far.
- With honesty, I wouldn't want to see a change only because it works. If anything probably to see it get even better.
- In terms of showing the websites when necessary. It would be best to take a picture of each section and add them into the slides.
- Everything was good
- Everything's good
- Having the orientation on an earlier date.
- None!
- Refreshments
- Play that tune
- More group activities to engage
- Nothing. The brain teasers were great!
- None. Everything was informational & definitely helpful!
- None, all info was well shared.
- Nothing
- More engaging, visual presentations
- More information on Health Services.
- More icebreakers.
- To the orientation program overall, really was excellent. I wouldn't change nor have an idea of how to better serve us as

- students of the program. However as students we feel less entitled to provide information when we prior to.. The orientation. Most of us guarantee took GCC classes from previous school yrs. That's all :)
- Maybe not too loud
  - No comment.
  - For hours of services have slides showing open times / dates.
  - Good job
  - Interactive Presentation
  - Be more interactive
  - Make it more fun.
  - Be more didactic and show pictures of what is being explained.
  - Presenting staff should be more engaging and presentful in a professional manor. Was often boring or not very presenting with some staff.
  - An estimated ending time in the email for student orientation.
  - Nothing
  - Great job on orientation.
  - No comment
  - Keep mask on for the presenters
  - I attended via Zoom and although I could hear the presentation I couldn't hear presenters clearly. I found it difficult to listen along to everything that went on. If possible for future orientations, if getting clearer audio for those joining online.

25. What aspects of the Orientation did you find **MOST** helpful?

- The presentations
- Everything was good
- Campus tour
- Pretty much everything
- The different demonstrations on how to use our resources.
- Having each program specialist / counselor describe their field and what they do.
- I found Counseling most helpful.
- All of them!
- Project AIM; tutoring services
- They are all helpful
- Every aspect
- The guides to getting info.
- Counseling department
- Advisors from different students services.
- Explanations on how to use the GCC website.
- Financial Aid and Project AIM

- Navigate the GCC website. COPSA was amazing with their "brain teasers." Counselor's giveaways were great!
- Who and where to go for help.
- The advising portion of the orientation.
- When the President spoke and informed us of the many great aspects of GCC.
- It was very interactive.
- All helpful
- Everything was great
- Student Support Services and Accommodative Services
- Student help
- Knowing the people in charge of each department
- All of it.
- Where to find lost and found.
- Project AIM

26. What aspects of the Orientation did you find **LEAST** helpful?

27. To better serve our GCC students, what suggestions do you have for improving the Orientation for future semesters?

- Everything was good
- Detailed presentations, overall, everything was great!
- Maybe a broader description of the programs provided.
- Food
- No improvements. All is fine.
- Better brain games
- Although it was good, there were times when I couldn't understand the speaker.
- Coffee
- Give us the dates for early registration
- It was great!

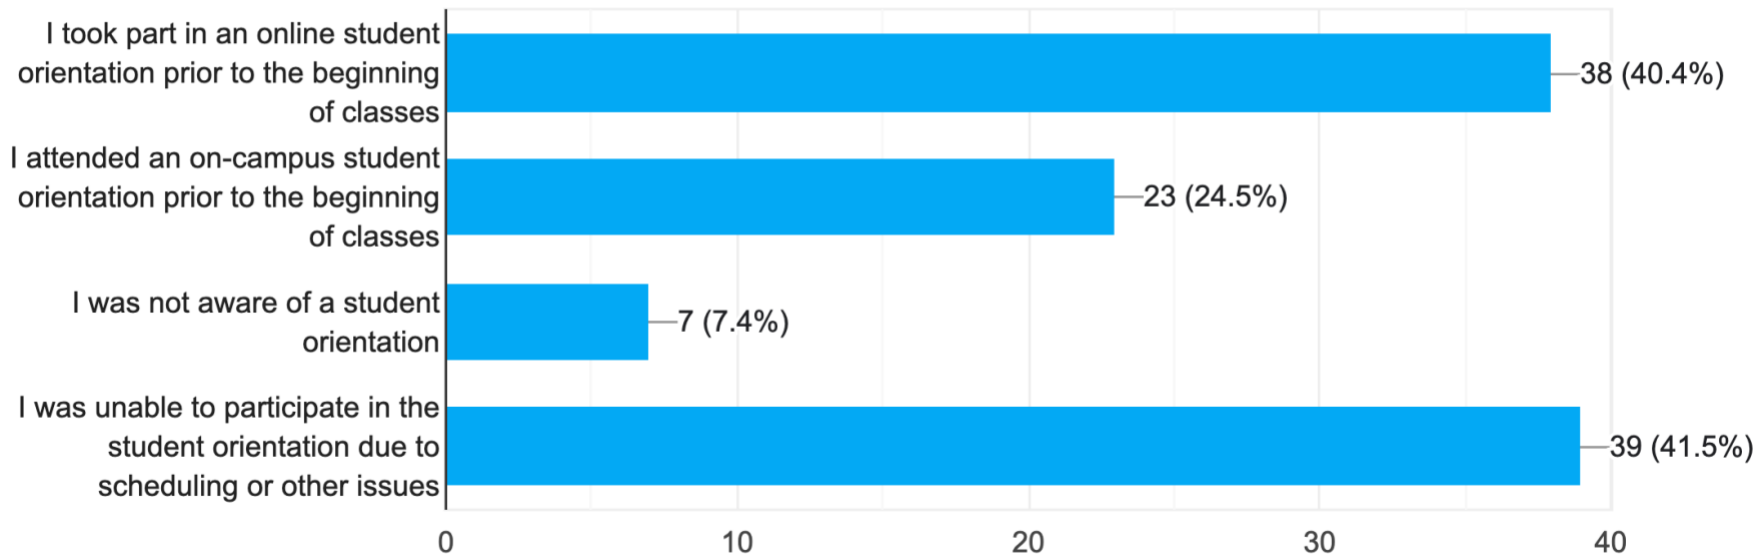

- Insert "BREAK" - needed the restroom but did not want to miss anything. I hope I do not get gallstones. Could use music in background.
- More presentations and more enthusiasm.
- Activities for each section of the orientation.
- Instead of giving fans as a reward give some binder chocolates. So much better than some fans.
- Nothing, it was good.
- It was great
- Have a little humor to light up the room.
- Keep up with it.

## **SUMMARY of #'s 8-10**

### **8. What could be done to improve the SkillsShop?**

Advertising clearly that if you show up after a certain time, you choose your spot

Use some personal or a current example

More time to write things down

Everything Ms. Williejo said was everything I needed to know

I believe it was great

Nothing...It was well executed/ presented

The PowerPoint (Make to words a little bit bigger) some people cannot see clearly

PowerPoint could use more visual aids (maybe a video or more photos)

Maybe add symbols of other resumes for creative and non-creative careers

Maybe more in depth information in regards to cover letters

"Resume worksheets" to practice filling out a resume

maybe provide sample too, pamphlets to the students

I enjoyed the whole presentation. It was informative and direct

More activities

Have a hands-on demonstration on how to create a resume from scratch (Have resume projected on the screen) - really helps for those that are visual learners

I would like to see more examples or maybe role play scenarios performed on topics mentioned, but not commonly used.

Maybe waiting a few minutes to switch a slide.

Provide examples

They could've made the picture of the sample resume bigger because I couldn't get a good look at it, or printed out a copy for us.

Not sure, the SkillsShop was all good.

Maybe more advanced advice. Basics are great, but not all of the students are recent high school grades or new to the workforce.

SkillsShop was appropriate.

Maybe add more time to go in depth with each topic being discussed to get a deeper understanding, rather than a general idea.

The SkillsShop was well put together.

You could add a bit more fun/interesting elements to the presentation, so that it's a lot more interactive with the crowd. Otherwise, it was a well informative presentation.

More activities.

Add more SkillsShop.

Hands-on

Present information with voice tones that will catch or keep the audiences' attention.

Activities.

More activities, snacks.

Focus more on hands-on activities.

Maybe a crash course that is more hands on to how to get a job.

Nothing. Everything was great and informative.

More engagement, both ends.

Show an example of different resumes more clearly.

More activities.

Actual examples of recommended resume writing.

Longer presentation time = more information!

More activity or presentation.

9. Give ONE example of how you will use the information from this SkillsShop in the classroom, your personal life, your workplace today, or when you enter the workforce in the future.

Prepare resumes better and write about skillsets pertaining to job sought

While applying for new upcoming jobs

Better my resume for the job fair next week

I will use this to help me after I graduate when looking for jobs

Make sure to look presentable

I will practice an elevator pitch to share who I am and what my goals are to apply for a job

BY preparing my resume for the workforce on the road to graduation May 2020!

Resume writing specifically in my goal of working in the medical field

I didn't realize that Linked In was widely used website to find employees. Will definitely use It to put my resume in the future.

Learn a new way of job searching strategy online

Will fix up resume to be a little neater/ more stream lined

I will more than likely use Guam websites to find jobs

I will now understand that it's inappropriate to add personal information in your resume. I never do that, but if someone were to ask me to review their resume, I would point that out to them

Summarizing information on resume, looks less cluttered

The skillshop can enhance my resume writing

I will learn to write a resume by making it easy to read and clean enough to let it get read easily

To fix up my resume to better suit the agency I apply for

Hopefully all the information I've gained will help me find a job

keep only 5-10 years awards and recognition

The information today will be used to help me apply in new businesses in the near future

This will help when applying for jobs.

Apply color to resume because it makes it stand out

Apply materials to improve when building my resumes and build better skills when looking for a job.

I can use this information when I am done with school and get a job. I can remember or look back at my notes to get through my resume.

I will use it to update my resume and search for jobs that better fit me to grow as a person.

Include information on my new resume.

I will try the walk-in job search strategy.

The elevator-method will help me.

I will use this information to improve my writing when it comes to creating a resume.

I will add objectives/summary statement to my resume and adjust my skills on resume.

I would use this information to make my resume better.

When I look for a job and maybe plan ahead for when the time comes.

I'll use this to apply for a job.

I will apply for jobs.

When I apply for a job, I need to overcome my shyness.

I can use them for my resume.

I can improve my resume.

Improving the way I format my resume for future careers that I'll be pursuing.

Preparing or finding a new job

Have an effective resume when applying for a job.

I'll give the information I learned today to my family members who need or what to know how to do resume or looking for a job.

I will use it to write my resume.

No cluttered application.

Updated resume.

Be able to do my resume and look for job openings.

I will apply my elevator pitch in everyday use.

While looking for a job, I will use my knowledge that I gain from this workshop to write a resume for that job.

I will revise my resume more often and make sure it is appropriate for viewers.

Be able to make my own rough draft.

Use the skills I learned in this workshop to improve my resume writing.

It will improve my resume.

Better resume and I know what to look out for.

I will take time to focus more on my information, rather than the design of my resume (VisCom Major).

To improve my resume.

10. What other SkillsShop topics would you like to see offered in the future?

Any! This is a great opportunity
Starting a business/ financial planning
Resume writing, job hunting, interview workshop
For people on what professional attire looks like and is appropriate
Topics about do tax; open bank accounts
I'd say money management, tax preparing and how to save money in college
interpersonal skills
social media presentations
More attire workshop
On the spot job interview
Self care and stress management (anxiety)
Taxes, insurances
interview session
Team work building
Build your credit score. How to budget when you have a job. How to build your foundation to make oneself credible.
Attire workshop - what to wear and not to wear.
Maybe more of the resume information.
Team Building.
Credit score. Bills.

A SkillsShop for the construction trades.
The actual process in being in a job interview.
Entrepreneurship
Money Management.
An in depth experience with each accomplished person. Each major, like section us out.
Managing money.
Management Skills.
Finance. Taxes.
Medical practices.
Stress Management.
Social Media Marketing.
Stress Management.
Culinary.
Building a good interview.
Nothing comes to mind at this moment.
Scholarship writing.
Whatever is informative and interesting.
Disability Awareness and a brief CLAS (Culturally and Linguistically Appropriate Services) training.
Budgeting. Building Credit Score.
Taxes. Buying a Car. How to Budget.

### **2. What could be done to improve the SkillsShop?**

- More videos?
- More video
- The presentation was given with great confidence and was well spoken
- More engagement and visual examples.
- None. Very good SkillsShop.
- Time Longer
- Longer Time
- The SkillsShop was well organized and they were able to open the floor for questions, but I think they should work on time management.
- I think the way they executed it very well. I was intrigued with what they had to say.
- Timeframe
- Meet the time frame.
- Meet the timeframe
- I think the time should be improved. It was delayed for a few minutes, but in the end it was a good presentation.
- I feel like they could have more time to present since the program started late
- N/A
- Having more examples to help understand the topic, also having same physical activities or more ice breakers would be nice.
- Time mangement.
- Don't use long videos. It breaks the flow of the presentation. Short videos like 3-5 minute is enough to keep the audiences attention.
- Better time management.
- N/A
- Everything was good.
- Time Management
- More experiences
- Start and end on time
- I have liked the presentation and would say that they offered great information. If anything, I wish the presentation time was longer.
- Better audio for videos and more screens so we don't have to turn.
- More icebreakers (:
- Start and end, as scheduled.
- A physical pamphlet presentation copy for reference.
- It was great!
- N/A
- Lights when presenting so we can see the slides better.
- We could have stuck to the time frame, but personally I enjoyed this SkillsShop.
- Have the lights off so we can see better and notify if there's presentation
- N/A
- Nothing.
- Nothing.
- I believe the workshop was well presented as is.
- Probably a shorter example video as it felt dragging & a little long.
- By giving examples.
- N/A
- More interactive
- Follow the SkillsShop rules.
- Time Management on the event
- Everything was perfect. (Maybe just the time limit we had, it seemed rushed).
- Strat on time.
- The presentation was helpful and very rewarding. The concepts will help in the future.
- TIme management, set back on time.
- No improvements are needed, this SkillsShop was very informative.
- I think more examples would do.
- Nothing.
- The skillsshop should improve on time management.
- Nothing. Was a great experience.
- More personal experiences or real life exercises.
- Be on time and to have more icebreakers
- Do more activities / interactions.
- Nothing. I did have to wait a few minutes to get in cause my name was not on the list, but they handled it very well. Thank you.
- N/A
- Being the first conference I've attended. I think the presentation was well organized and informational.

- There were some typos in presentation; proofread text
- More sure there was enough space for people. They had to set up a new table and chairs to fit everyone. Didn't give time for break.
- Nothing much. Just need to improve on the timing so it follows the conference agenda.
- I think that they should include more skills for the presentation. However, I think that this presentation is informative (:
- The presentation was excellent. I appreciated the personal examples given by each presenter. Perhaps next presentation they could include an entry level employee to help relate to the audience which I assume are mostly entry level applicants.
- Maybe some mini quizzes at the end of each topic.
- I think the SkillsShop can improve next time by starting on time because we started a little late.
- Shorter examples. Examples that the audience can relate to. Examples on self experience.
- The only thing would be starting on time, but overall the skillshop was good.
- Everything was awesome. It's my first time and it's amazing. Thank you all.
- To be honest, everything they had presented was perfectly said.
- The mention of Bank of Guam in the beginning would have been helpful as they were not being identified with the uniform.
- It was perfect. Nothing wrong. Learn new ethics.
- I thought the skillshop was very effective by itself

### 3. What Skills Shop topics would you like to see next year?

- Hiring process.
- Not too sure.
- Information on the current job markets.
- GPD
- Design.
- More on finance.
- Not sure at the moment.
- I would like to see/hear about the workforce for the new generation. How the new generation affects the workforce today and how many changes it made.
- Money management, building credit
- How to distinguish workforce in an office position vs. fieldwork (eg: the difference of ethics in Accounting vs. Nursing)
- More engagement
- Capitalizing on What Makes You Unique; How to stand out
- Stress management
- I will be more ethical
- Morals.
- No comment.
- N/A
- Marketing workshop
- Open to anything new
- Marketing workshop
- Anything

## **Summaries of #'s 2-5:**

### **2. What could be done to improve the Conference?**

- I was glad to have had the opportunity given to me. I wish the time was longer, but I know the time provided was enough.
- It was great overall
- The time should be improved. Even though it's a delay, it didn't really affect as much. Maybe a bit more games that can encourage all participants to join.
- More games and fun presentations like the fashion show and the wellness support.
- Overall student conference was excellent. Thank you and well done COPSA officers.
- Nothing.
- I think next time conference should be improve by choosing a game safer because one of the games did harm to my hand. Overall everything else was great.
- It was awesome today.
- I think the conference could ensure that the amount of seats would match with the attendance. Also the timelines is another issue.
- Everything went well. It would be nice to have a certificate at the end of the conference or later.
- Schedule. More club collaborations.
- Conference should have more activities.
- Just a little time management. The conference can start later if students and participants are still tired, perhaps.
- Light off during presentation slide
- Time management. Having more games and good prizes. Or have a photo booth for kids to have a memory of.
- The conference was both informative and engaging.
- I think we could add more activities for the next conference.
- It was great
- The time. It felt rushed, but overall a great experience. Have more chairs.
- Time. There were people hogging chairs. More cake.
- Just stick to time management so more activities can be added.
- Maybe giving just two workshops.
- TO start on time like what is scheduled
- A little more excitement from COPSA officers.
- Time was a bit of an issue, but it was very adaptable in the conference.
- have more time management / stick to schedule.
- Being on time and making sure there are enough chairs for the students
- Wi-Fi Please
- Nothing. It was perfect
- Better time management and more opportunities to engage with the speakers and students (more breakout rooms).
- Have more activities
- Follow time schedule
- Everything was great and well organized presentation.
- Scheduling (Begin on time)
- Need more preparation and more helpers. Need internet; Bring a first aid kit.
- Time management can be improved. Having to change the set schedule is an inconvenience for the participants and your guys as well.
- Time Management
- More prizes!
- More monitors (so we don't have to turn around).
- More breakout rooms
- More activities and skillshops. Starting at a later time to avoid starting or pushing back time.
- Give all the information that student should have to know.
- Provide more tables. Overall I am grateful for everything and everyone. Thank you!
- More hands on activities during sessions. Start on time.
- More cake and a few more minutes of break
- Small improvements to time management; Games/activities at the end; More than one breakout room per person; More chocolate cake.
- Great sessions today
- To improve the student conference is give mini hashtag signs at each table to take group photos or selfies. Put more signs!

- I think better seating and follow the schedule.
- Start on time
- More games and activities
- Everything was great
- More time management. The conference was tight on schedule which made the conference a bit hasty. (Earlier time or shorter breakdowns)
- Always have new things to show
- More activities, equipment (tables and chairs), food, and waiting area for breaks.
- 1 or 2 more breaks
- It's good the way it is!
- Overall, I love it and maybe give out certificates for every student that attended.
- Time Management
- I think time management
- Job fair; better food; service with hotel staff could have been better :( They were not friendly when requesting to replenish the desserts.
- More activities about topics, more trivia, maybe quizzes about presentation and prizes.
- It is already good.
- Better time frame. The conference was behind schedule.
- Nothing of note. Maybe lunch after games. Playing games on a full stomach was a little rough.
- Needs to be active and helping other students in the conference. Hold me during the activities with the other students.
- It was fun and very empowering!
- Nothing. Overall, Great conference.
- Nothing or maybe more prizes
- Better time frame
- None. It was excellent.
- Make sure it starts on time. Make sure there are enough tables for people. Wi-Fi access.
- More prizes and enthusiasm.
- Nothing
- All presentations were interesting
- All activities and presentations were interesting and informational!

  - Any other SkillsShop that is different from this conference and the last leadership conference.
  - Managing time effectively.
  - Anything to improve our living habits.
  - Learning how to be inclusive of LGBTQ+ individuals.
  - Career Information
  - I look forwards to next year's conference and the wonderful lunch. The seminar was very helpful.
  - Using the tips that were given by the presenters.
  - One of the most important thing I learned today is being an ethical person. I will use what I learned today to improve my moral

behavior not just for work, but for school and personal life like improving communication, in general to improve my ethical behavior.

- I will be using all this information when I enter any workforce and in my personal life to save better and to prepare myself more for a job.
- I can learn from the information by improving skills and working together as a group.
- I will use what I learned in today's conference and apply it to what I do.

I recommend that the timeline for the SkillsShops be:

**Give an example of how you will use the information from the SkillsShops in the classroom, your personal life, your workplace today, or when you enter the workforce in the future.**

Future interviews of a job

I will apply the knowledge by letting others know how to apply the skills to their personal lives.

I will use the skills explained in the work shops to more affectively apply for jobs, conduct business more officially, provide more appropriate attitudes towards my coworkers and more confidently communicate with my peers.

From all the tips or examples from all there interviewers i feel more confident and able to speak out more.

After graduating, I can use the tips the employers gave in my next interview or finding a job in general

Best to come into your workplace with a good attitude

It is nice to be reminded that learning is constant, no matter where you are in life.

I will use the knowledge I gain of managing my money

Be more prepared for interview

I will definitely be using the money management tips and the interview tips they gave.

I could use the information that I learned today from our skills shop in the classroom to my personal life by helping me prepare myself for my future career and how to look for which job best fits my personality and so on.

Embracing and accepting every opportunity that presents itself (i.e. program, scholarships, courses, conferences such as the EDGE, etc.). There's always something to learn, whether it be about myself, my potential career choice, job; so it's important to stay proactive and don't be afraid to try and experience different fields and interests.

How to write an essay
I love the information regarding preparing for an interview the do's and don't and awareness of my surrounding to be less distracted and to dress appropriately. That is some information that I think will be valid for me personally while looking for a job
An inventory of my values in sync with the values of the company I will be working for.
im defs. going to partake in my future more by actually saving money. Ive been wanting to transfer to UOG for a while now also, now i know that I need to take a few more classes at gcc and i'll be done. If i have any questions... now i know who to contact for answers.
all information given was good n all could be used
In the classroom: apply professional body language in presenting self/ in personal life: employ RISEAC considering things important and valuable in work or working with others, and setting financial priorities and budgeting. I am going to start something I have not done before -- pay off debts from smallest (begin here) and work to eliminate the rest, and revise spending and start to research investments even if it a tiny portion or pinch from whatever remains from my budgeting plan. I am not too savvy at all with technology and will learn to apply it with my financial plan. If worse come to shove then seek financial advise from Ms. Florence Martinez. My long term goal is financial security. However, for me to be in ten years is to be totally debt free, and possibly manage a small business. Furthermore, with any available time within the ten years attain my bachelors degree and make available the opportunities provide in this workshop "THE EDGE". I may tap AmeriCorps for work experience and work with others in a supporting environment. In the workplace: again apply RISEAC Theory of interest and understand it as it applies with others. knowing their interest and utilize it for understanding others and maybe build a rapport with them. I will set goals in life and at work to seek to improve for myself. I need not to be living negatively but be able to dream, set a goal, and set my plan, and follow my plan, now that I have "THE EDGE".
I will use the knowledge I gain from the mini money moves to think more about how I handle my money.
For all the tips and examples from all the interviewers, i feel more confident and able to speak out more.
I'm grateful for the last workshop because it gave me insight on what to expect when transferring to UOG.
Greater understanding of what to look for and ask in the workforce
I will use the information about finding the right career that best fit me by pursuing my college degree that I enjoy doing like helping people in medical need.
I was attended the conference mainly for the "Making the Transition: From GCC to UOG" SkillShop and it gave me a better understanding of how I will approach the process since I do want to transfer. However, I didn't realize how interesting the "Mini Money Moves" SkillShop was equally as interesting and I realized I needed to reevaluate my organization of my funds.
Using tips during an interview for a job and acing it.
Possibly if I pursue a bachelor's degree...will need to transition to UOG
The SkillsShop "Finding the Best Career Fit For You" would help me in deciding what career I really want to pursue. I was able to take away all the important points when considering what career I really want and what works best for me and my skills. I know that I will be able to take these points and principles and apply them throughout my professional journey.
The network was important. The tools and tips as well as where to go & who to go to was also especially important as we will definitely need that when we want to enter the workforce or transition into UOG. Knowing what to do or where to go not only saves time, but helps you prepare for that time and gives you confidence that you're not walking into it blind- that you have all the right tools and resources.
Okay! Well the first important thing I usually do is thank the Lord up above for his Blessing, his guidance, his protection, and the strength he has given to my small little family and I because with out the good Lord up above I wouldn't have the strength and courage to get me this far. Also meeting wonderful

people with so much support. Thank you Lord. Now I feel much better thanking the Lord. Now I would start off by having faith and believing in myself that I can accomplish my goals. By doing that I would start setting my plans on a notebook making sure I follow my plans step by step. On my notebook my first priority is to make sure my kids are well taken care of. Then logging down the important subject I should take to reach my goal and seek for help when I'm in need. Second would be focusing in school and reminding myself the reason why I'm attending college. I don't really have the right answer to the question but all I know is that being a parent I want my kids to have a bright future ahead of them. The only way is for myself to start showing my kids that school is the key to success. And without success or accomplishing your goals it's a struggle in life. I'm sorry if my answer ain't correct but I've tried. Thank you have a Bless day.

I will be implementing the finding the best career for you , aing an virtual interview and making a transition from gcc to uog to my middle school students as a lesson.

The Mini Money Moves helped provided a clearer mindset to credit and why it's important. I always strayed away from the idea of thinking about signing up for it, but after today, I think I'll look at it with a less intimidated mindset.

Budget; plan for where your money goes, not look for where your money went.

I could use the information on future job interviews

I use the bugeting tips that were provided.

By saving and investing the money so I can build a business for the future. Always have a good behavior and positive attitude.

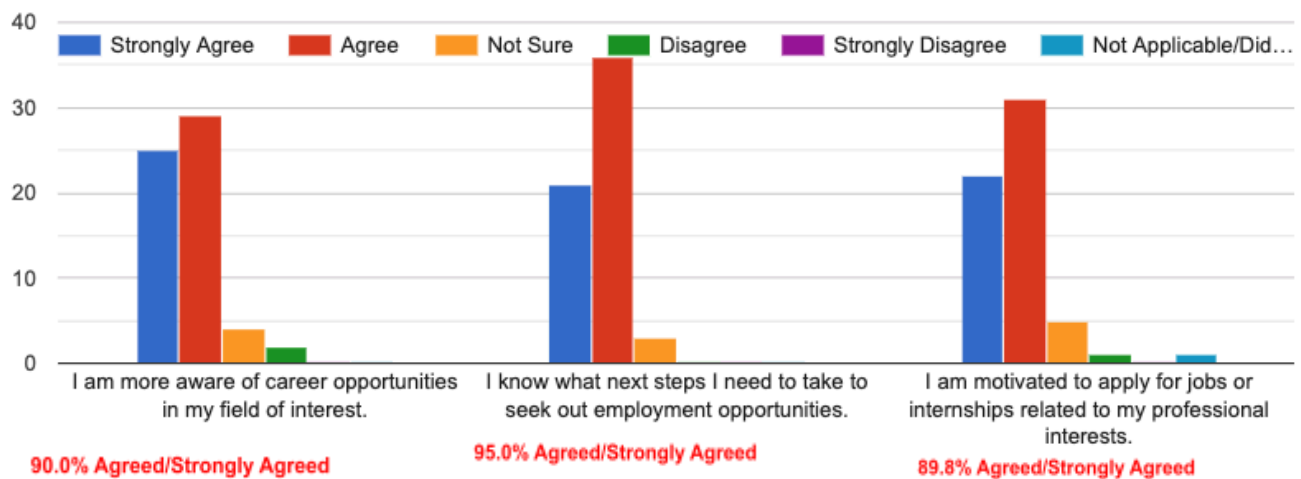

The presentations today will help me in tailoring my future to my preferences with the knowledge they provided me

I will work harder in managing and budgeting my money by cooking more homemade meals and controlling my impulsive buying behavior by creating chart of wants vs. needs to see the bigger picture and save more money.

I can use tips from the different employers on the conference in my next interview or when I'm finding job.

I feel like the mini moves would make a great impact in my personal life.

As a result of my experience attending the Virtual Career Fair:

### What could be done to improve the SkillsShops or Virtual Career Fair?

I think the SkillsShops and Virtual Career Fair was well done this year. It went very smoothly. I think the only thing that could be improved would be to lessen the time frames for each SkillsShops.

More presenters from various field. Law & Criminal justice, Education, Agriculture and so forth. Im a CJ major and it would've been great to hear from someone in the Law Enforcement or Justice system, just as much as it was great to hear from nursing & the hotel industry.

Nothing in particular--- Zoom should add captions/subtitles, unless it wasn't easily accessible due to user interface.

Nothing everything is great

More speakers

For Virtual Career Fair, I felt that the panelist-type career fair was more effective in allowing students to interact with the presenters.

Providing online templates for each skill shop a few days prior to the event to act as an interactive way to stay engaged during each skill shop to ensure that students are getting and keeping the info they need.

I thought the online platform was a good idea.
