**Subject:** TOHGE presentation

Hafa Adai Team GCC,

**TOHGE** is willing to do an interactive presentation for us here at GCC. I would like to schedule it at a time and on a date that would maximize the attendance of your students and faculty. Please send me some suggestions. They presented before on their personal struggles with substance abuse, mental health issues, support systems, and relationships.

As you know we had presentations by a therapist with another therapist scheduled soon.

However, this presentation is from people who actually experienced and struggled through these tragic events versus from a therapist's point of view. Both points of view are needed and are valid.

I strongly recommend this presentation for persons in the human services, law enforcement, educational, and medical fields of study and instruction.

Thank you,

John Payne
