3. Please rate the usefulness of the resources/information you received.

15 responses

4. Besides developing a resume, what was the most valuable information/service you learned from your session(s)?

15 responses

I have learned to work hard and give up because in the end I'll learn something

Patience and knowledge

You can use organization membership as work experience

There was so much. From the layout to the wordings. The most valuable information I learned about a resume was to do your research to what the job is seeking for & applying it to your own experience.

I've learned that this program can also aide you into finding a job.

It was educational and helpful to learn how to properly create a resume and what information to put. It was also great to know the format of a resume and how to really catch the eye of your employer.

More knowledge on how to set my goals.

i learn alot from my session

Recommendations/comments:

Just keep on being positive

I highly recommend the continued use of the google docs app. When working with Mrs. Sidon, I felt it was so much more to absorb to see the difference being made and learning to make a resume specific to you.

Thank you for your wise guidance!

Eliza Manglona

It is a great thing to keep it going.

Thank you so much, Mrs. Sison! The session was well informative and communication skills is beyond what I was expecting! Stay safe!
