Student's Strengths: I have been very impressed with #7 organization. Our social media plan is extensive, well laid out, and easy to follow. The incorporation of graphics and templates, hashtag banks, and best practices will be invaluable. #7 ability to explain and teach the high school HOSA officers is equally impressive. I know they will be able to take these plans and execute them.					
Student's Areas for Improvement: #7 confidence has improved and has been operating from a position of authority. Due to the pandemic and extenuating circumstances, the project did fall behind schedule. This was unavoidable and #7 maintained good communication. In an attempt to find an area of improvement, I will suggest time management.
