

First Quarter Exam

You are the manager and purchaser of an independently owned quick-service restaurant that specializes in burgers. You must update the product specifications for ketchup, cheese, tomatoes, and hamburger meat. Use the purchase specification format shown below and the discussion of specification factors that precedes it. Consider the factors that should be included in a purchase specification for each item. Complete one copy of the specification for each of the four ingredients. Consider how to explain your decisions to the owner.
