I will always support the GCC education programs and their practicum students in order to provide them with hands-on and real-life experiences. I was excited to take on a student this year because I have a student with special needs in our classroom. I suggest that the students spend more time in the classroom. My student seems more comfortable and engaging with the class and events after she had completed her required time with us, since she comes to visit on her own time. Keep up the Great work committed to giving our young learners of our island the best educators we can.
