# Active Shooter Awareness & Preparedness Refresher

RUN. HIDE. FIGHT.® Surviving an Active Shooter Event.

A message from the Environmental Health & Safety Office:

Due to the current COVID-19 pandemic situation we are in, it is unfeasible for us to hold an on campus Active Shooter training for everyone at this time. An Active Shooter video is made available here for your viewing for personal safety awareness and preparedness in the workplace. Please kindly take five minutes and a few seconds of your precious time to view this video as a refresher to be prepared. This video will be available here until December 31, 2020.
