good to know that there is more to grief than just a loss or divorce.

A friend of mine did lose a pet, and they've had him for ten years, it is

like losing family. If my friend was here and heard one of the  
presenters way of approaching that topic, it would have offended  
her. please be a little more cautious w/ way of wording to  
certain topics... over all informative.

6. Additional Comments about the presentation :

The personal accounts were insightful. Presentation can  
be improved by talking about the actual tools  
that can be used to manage grief.
