Norma.guerrero@guamcc.edu

I would like training for Moodle, Edmodo Google Aps, please - Christie Marie Ginson / christiemarie.ginson@guamcc.edu

theresaann.datuin@guamcc.edu, The projectors and computers need to be upgraded especially in room A26.

Christine Matson/christine.matson@guamcc.edu

Please post topics and dates of sessions.

Esther.rios@ guamcc.edu

Open Source Alternatives

afaguon@gmail.com

emily.meno@guamcc.edu

Nita JP Cepeda: specifically grading software

Schedule trainings at 30 minute intervals between classes, preferably on lower campus.

Thanks for the opportunity of allowing us to complete this survey. I hope you will consider making Moodle available to all faculty who are interested. cresencia.ilicito@guamcc.edu

Jose B. Lopez II jose.lopez@guamcc.edu

I personally think that everyone should be comfortable to the technology afforded them to help enhance student involvement as well as Troy.lizama@guamcc.edu

It isn't that training should or should not be offered, but moreso, as faculty need assitance with these technologies etc., there should be monica.salas2@guamcc.edu

6 **Do you take advantage of any training or technology training offered by GCC?**

Answer Options	Response Percent	Response Count
Yes	37.80%	28
No	21.60%	16
Sometimes	40.50%	30
Why?	37	37
answered question	74	74
skipped question	3	3

trac dat is confusing
Committee, classroom or dept mtgs are sometimes scheduled same time as technology training offered.
I want to learn more
I take advantage of the training 1) its free , 2) at times required 3) it will better help me perform in the classroom.
To assure ourselves that we are doing the right thing/procedures.
Time
Conflicts with time
I can attend depending on my schedule
The times scheduled conflict with personal schedule.
They help me to better use technology in teaching.
I attend trainings when there are things I need to know.
professional growth
My schedule conflicts with the offered training times.
It is helpful and entertaining
Scheduling
Schedule conflict
Need to be updated
If the topic or technology is unfamiliar to me and I think I could use it, I attend.
time is a major factor
Schedule conflicts
Not aware of any
This is for enrichment and certification purposes.
It truly enhances my ability to perfect anything I may have missed and keep me up-to-date. When students pay for such technological
Lately the times are offered when I have class.
These are usually offered at inconvenient times, or, they might not be relevant to my courses.
I have a day job and my adjunct courses are normally at night. i would have any time to spare to attend any trainings.
Any training that empowers faculty and ultimately the students is valuable.
Additional knowledge.
Time the courses are at
Based on the time alot of times they are scheduled during my class times.
The times sometimes conflict with secondary school hours.

Have not heard of any such training worth my time, attention, and effort.

Times are usually on Friday afternoons which are difficult to make.

I have been teaching for more than 10 years at GCC, I don't recall GCC have offered much technology class related training.

Learning is ongoing and change is constant

Scheduling problems.

I like to learn,

7 **What other classroom technology concerns/solutions need to be addressed?**
Some kind of study to determine the effectiveness of the use of technology
Instructor's Modules and text(s)...
require more lap tops to use for quizzes and eliminate need for printed tests.
Multimedia projector, please, ceiling-mounted, in every classroom. Thank you!
More access to research databases in the classroom. E-books Movie Maker software or similar software
I would like to start offering online/hybrid math courses but don't know how or where I can get support.
The classrooms should have multiple outlets available in many areas in order to satisfy the amount of student/faculty laptops.
Reliable wireless Internet in every classroom with sufficient band width. There should also be a cabled connection in every classroom.
We need to be able to darken classrooms for use of technology, and also for security. Some classrooms have windows without covers,
Wider access to Moodle
Some buildings don't have elevators or have steps that make it difficult to get from one area to another. Backup projectors need to be
All classes and offices should have access to Cable TV. We do not have to provide TVs in every office or classroom but we should
Availability of technician during class times. Ie trouble desk
Classroom technology such as computers must be used for instructional purpose only. It is difficult for full-time instructors to
Students complain that the GCC email system is unreliable and not user-friendly. I've experienced this myself. On occasion, I've asked
having reliable and fast internet service
Support.
Equip more classrooms with computers to meet the demand of courses that may need to use the computers for students to do in class
class rooms are not great but okay for its purpose.
Students should be encouraged to utilize the highest available technology at GCC in and out of their classrooms for both academic and
wireless signal very weak and intermittent
The use of smartphones for classroom/course purposes.
1. The projectors at one point was an issue, but has then been resolved this past Fall 2013 and I am one instructor so dependent on it. 2.
Speed of internet and imaging of computers should be done more frequently than just at the end of the semester, since students are
Upgrading of computers that are in classrooms - I have several computers that should either be repaired, upgraded, or replaced.
Again, the Moodle CMS should be made available to all those faculty who are interested in using it to enhance instruction with their
MIS need to be able to troubleshoot both PC and iMac. Every classroom should be equipped with at least 1 desktop and ceiling
clickers for interactive whiteboard
More reliable WIFI, Ipads, laptops, movie marker, remedial programs to assist students who are failing the core subjects, graphic and
How about buying autonomous cleaning equipment (e.g., Roomba, etc.) to clean classroom floors? Some rooms are pretty disgusting. I
Air-conditioning system often not in working condition in many classroom. Classroom door would have been left open just for good
Access to wireless from every location at GCC.
None.
Don't put classes into computer labs unless the class requires use of the computers; they are a constant distraction otherwise.
Phone availabilty in each classroom in case of an emergency.
Updating software to latest version (i.e. Microsoft 2010 needs to be upgraded to Microsoft 2013 soon)
