Got to wake up and get ready for school
Can't slow down because there's a lot to do.
GCC you got what we need,
Thanks to Guam Community College courses that you bring.

See I paid for this class
So I can learn and pass
With new skills to use
So I can win and not lose

And we got all this time
To remember all these things
So we won't fall behind
Because of Guam Community College courses!

GCC you got what we need,
Thanks to those student learning outcomes that you bring.
Got to wake up and get ready for school
Can't slow down cause there's a lot to do.

There's usually three, how easy
Like to grow to know
How to state and create
Or apply and design

A plan or technique
So we can think and not sink
Cause we'll grow to know
How to believe and achieve

All our dreams (All this time)
All our dreams (To remember all these things)
SLOs (So we won't fall behind)
SLOs (So let's review all these SLOs)

GCC you got what we need
Thanks to those student learning outcomes that you bring
All our dreams.
