Subject: Submission of Standard One print report today
Importance: High

Dr. Ray,

I am turning in a print copy of the Standard I report today, which includes all the evidence. I am attached an electronic copy of the report alone **without** the evidence. The report is being scanned to a pdf. It is 82 pages long. I will e-mail the electronic report and evidence as soon as it is available.

Lani Gamble made an important contribution to Standard I by agreeing to be on the committee. There were no other faculty members joining Standard I, and there are vacancies on at least one the other standard committees. We have to have at least two members to even have a valid standard committee.

Lani attended all of the Standard I formal committee meetings, as well as one meeting each with Dr. Gina and Marlene Montague. She attended committee meetings for all the standard members. We also had informal meetings where we discussed Standard I and the progress on the report. Lani worked on an agenda and minutes for one of our meetings. She is preparing comments on the final Standard I report that we will use in revisions next year.

Lani doesn't have her certificate for "Accreditation Basics" yet. She set up an account on the ACCJC site earlier this week. However, she hasn't been able to access her account in order to take the test. She sent an e-mail to technical support. I'll forward her certificate as soon as she receives it.

A paper copy of my certificate is included at the end of the print Standard I report.

Thank you,

Christine
