How to Install Xerox Printer Drivers for MAC OS X

OSX 10.7-10.9 is required to install drivers.

1. Locate the driver file that was downloaded from <u>www.guamcc.edu\xerox</u>. By default MAC OS X saves downloaded files in the downloads folder. From your desktop on the Finder menu click on GO and then DOWNLOADS to open the downloads folder

Once in the downloads folder, double click on the driver file.

2. A new window will open; double click on the .pkg file

	Aerox Print Driver 3.16.0	
Xerox Print Driver 3.16.0.pkg		

3. Click on Continue.

000	Install Xerox Printer	
	This package will run a program to determine if the software can be installed. To keep your computer secure, you should only run programs or install software from a trusted source. If you're not sure about this software's source, click Cancel to stop the program and the installation.

11. Click on Close to complete installation of Xerox Printer.

12. If your printer was not listed click on the icon that has the single square on it.

13. Enter the IP Address of the printer you want installed . The format of numbers should look like this **192.168.xxx.xxx**, where **X** = the numbers used for the printer you want installed. Refer to the **Xerox Equipment Map** located at <u>www.guamcc.edu\xerox</u> for the IP Address. Click on Continue once the printer has been located.

14. Go back to step 10 and 11 to complete the Xerox driver install.
